

Franklin Station Renovation Design

July 14, 2025

Transit Activity

- Opened 2004
- Consistent all-day activity
- 400k rides in 2024

24,000 e-scooter and e-bike stops and starts documented in 2023

Station Overview

Purpose and Need

Accessibility

Customer Experience

Reduced Daily Maintenance

Mobility & Connectivity

Sustainability

Community Identity

Planned Renovation Scope

- Vertical circulation & ADA access improvement
- Platform-level shelters, canopies, and passenger amenities
- Lighting, technology, systems
- Wayfinding, multi-modal connections and station area landscaping
- Staff facilities

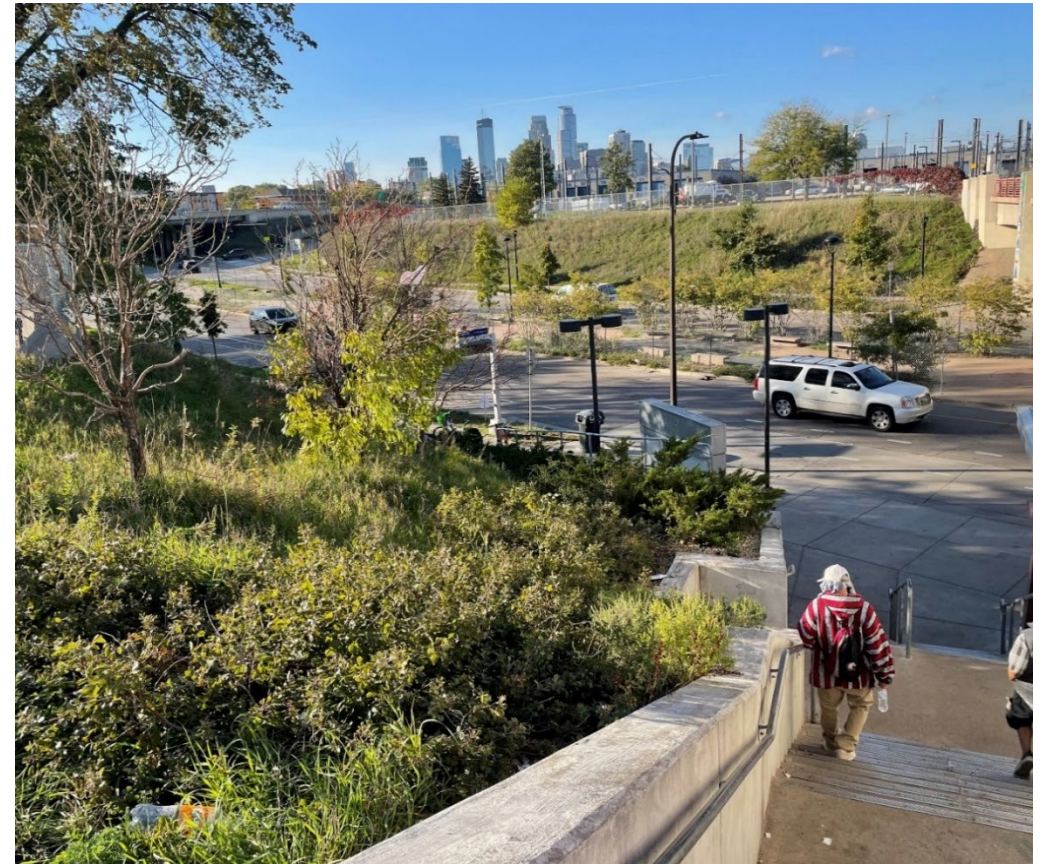

Proposed Action

- 2025-155
 - To negotiate and execute contract 25P213 with Kimley-Horn for design and construction services support in an amount not to exceed \$3,299,839
- Small Business Inclusion
 - The Office of Equity and Equal Opportunity (OEEO) established a 12% DBE goal for the project. OEEO has determined that Kimley Horn has met the DBE requirements.

Anticipated Timeline

- Full Design under contract 25P213 to be completed in September 2026
- Construction, including support services under 25P213 (2027-2028)

Thank You!
