

# Group Exercise: Mural (digital workspace for visual collaboration)

Lanya Ross, Environmental Analyst, Water Supply Planning

MAWSAC & TAC Joint Meeting: January 18, 2022

# Introduction to Mural

This is one of many digital workspaces for visual collaboration, like an online 'whiteboard'.

[Mural tutorial videos are online.](#) Search "learning the basics of MURAL - YouTube playlist"

The image shows a YouTube playlist interface. On the left is a video player with a 'PLAY ALL' button. The main area displays three video thumbnails with their titles and durations:

- 1. What is MURAL (1:31)
- 2. Navigating the Mural (3:45)
- 3. Adding content in MURAL (2:51)

Below the videos, it says '7 videos • 100,691 views • Last updated on Jan'.

# Mural introduction

The screenshot shows a Mural workspace titled "MAWSAC May...". The top navigation bar includes a "SHARE" button, a "Facilitator" role indicator, and icons for navigation and search. The main workspace contains two sticky notes. The left sticky note is titled "Support for problem statement and goal" and contains text about water supply and a scale from 8 to 1. The right sticky note is titled "What would make you..." and contains questions about strengthening the problem statement. A table with 8 columns and 3 rows is visible, with a red arrow pointing to it from the text "Double click sticky notes to type comments". On the right side, there is an "Outline" panel with five items: "1 Consider the Problem", "2 Revise the Problem", "3 Is anything missing? ...", "4 What could we start ...", and "5 Leading the way". A red arrow points from the text "More guidance in the Outline. Click on the gray boxes to expand the instructions." to the Outline panel. At the bottom, there are three red callout boxes: "To move around the space, click and drag. To zoom in and out, use Ctrl+ or use the scroll wheel on your mouse.", "Hover over LR icon and choose follow", and a zoom settings panel showing "8%" and "Zoom settings".

## Support for problem statement and goal

Consider the proposed problem statement and goal, and share your 'gut reaction' on a scale from 8 (like it) to 1 (no-block):

There is always the potential of another contaminant emerging in our water supply. As a region, we are not always proactive or best prepared to prevent spread or be responsive when new sources of contamination are discovered. *In this context, "framework" is defined as the ideas, information, and principles that form the structure of a plan or process.*

MAWSAC and Technical Advisory Committee (TAC) would like all the region's... prepared for new, emerging contaminants and empowered to continually work... supply. The MAWSAC, under advisement of the TAC, recommends that, to address... Metropolitan Council and the State of Minnesota support a framework to maintain... integrated water approaches developed collaboratively by communities, water...

"I like it."	"Basically, I like it. A change or addition might make it better."	"I can live with it."	"I have no opinion. I need a question answered, or this does not affect me."	"I don't like this, but I don't want to hold up the group."	"I want my disagreement noted in writing, but I'll support the decision."	"I don't want to stop anyone else, but I don't want to be involved in implementing it."	"I veto this proposal."	

What ideas that your colleagues shared do you want to highlight? (Vote)

## What would make you...

Share suggestions to strengthen the problem statement. What would you change, if anything, to support the problem statement ->

Does thinking about these questions make you want to change the problem statement ->

- What are the current challenges with this topic?
- How would you like things to be? What is your vision?
- What happens or what opportunities do we miss if we don't change?

More guidance in the Outline. Click on the gray boxes to expand the instructions.
