Process Overview

- Reflections and Lessoned Learned
- Current / Future Issues & Themes
- Relate to Policy Realms
- Regional Values, Vision & Goals
Vision and Values Considerations

Example Inputs

- Themes from community Comprehensive Plans
- Regional research and emerging issues
- Themes from Council and advisory groups
- Policy plan needs
- Outreach and engagement
2050 TPP Advisory Work Group

Topics for Consideration

• June (today):
  • Facilitated breakout groups on conceptual planning themes

• August:
  • Structured review of input on values, vision elements, and issues of concern
  • Review of high-level indicators on region’s strengths, weakness, opportunities, and threats

• October:
  • Review and input on proposed draft language
“Whatever needs the most change is what needs the most attention to advance.”

“Technology is not the vision. Use technology to get to the vision.”
2050 TPP Technical Working Group

Values

- Equity
- Respect
- Belonging
- Engagement
- Inclusion
- Participation
- Accountability
- Transparency
- Innovation
- Choice
- Comfort
- Convenience
- Flexibility
- Mobility
- Safety
- Stewardship
Vision - Regional

- High quality of life
- Healthy and livable

- Environmentally sustainable growth

- Economically competitive
  - Shared prosperity

- Technology helps solve problems

- Connected / convenient communities
- Mixed-use suburbs
- Higher density mixed use corridors
- Places for people
- Vibrant street life

- Racial equity
- Acknowledgment of history and contributions of Native communities
Vision - Transportation

- Regional connections to opportunity
- Safe and accessible for all modes
- Smooth inter/multi-modal connections
- Resilient to changing climate/weather
- Pollution / GHG reduction tied to inequities
- Equitable investment and funding
- Equitable infrastructure condition
- Supports sustainable land use patterns
- Expands to serve growing areas
- Connectivity with Greater Minnesota
- Electric vehicle charging grid
- Attractive choices for those without personal vehicles
- More complete streets
- Sidewalks in all cities
Equity / Engagement Issues
- Need for buy-in
- Engage with humility and respect
- Address racial inequities
- Incorporate health considerations

Infrastructure Issues
- Electric vehicle (EV) infrastructure
- Green infrastructure
- Bridges
- Right-of-way allocation
- Curb use
- Freight / e-Commerce
- Oversize / overweight vehicle needs
- Asset management

Travel Behavior Issues
- Hybrid / post-pandemic
- Vehicle miles traveled (VMT) reduction
- Transit demand
- Transit access / reliability
Climate Issues

- Competitiveness of sustainable choices
- Integrated sustainability approaches
- Livability impacts of changing climate

Land Use Issues

- Transit-oriented development (TOD) investment
- TOD affordability
- Freight / industry protection
- Repair / restore
- Hybrid work / communities

Implementation Issues

- Realistic / possible
- Goal prioritization
- Clear definitions of equity, balance, and stewardship
- Clear definitions of goals and tracking of progress
- Funding constraints
- Financing with EV adoption
Breakout Groups (1)

**Five themes:**

- Equitable, affordable, and welcoming
- High quality and resilient environment
- Vibrant places and destinations
- Accessible and interconnected
- Prosperous and healthy
Breakout Groups (2)

Half Hour Session

- *What values come to mind?*
- *How do you envision the transportation system supporting this theme?*
- *What stories or positive examples come to mind?*
Full Group Report Out

Half Hour Session

- What ideas around values came up?
- What future features or state of the transportation system did members discuss?
- What stories or positive examples came to mind?
What Comes Next

- Documentation of Input
- Briefing of Metropolitan Council
- Memorandum to Technical Working Group
  - Planning for August Advisory Work Group Meeting
    - Data / analysis considerations
    - Mode considerations
Thank you
