Structure and Terminology

Aug 2022 - 2050 TPP Advisory Work Group

# 2050 Policy Plan Coordination

## Internal team identified the need for shared structure

Shared structure will help the Council...

- Organize how we approach policy development
- Better understand how our respective areas relate to one another
- Keep us on track as we work through the writing process
- Promote shared and consistent language around key plan elements

Consistent terms and definitions:

- Values
- Vision
- Goals (regional)
- Objectives
- Policies
- Actions

# 2050 TPP Schedule

\*The next major Regional Solicitation update is scheduled for 2025 or 2026 and will not overlap the TPP schedule.

# Policies and Actions Development <sup>(1)</sup>

## Proposed Approach

### Phase I

- Evaluate existing 2040 TPP for potential policies
- Group them by functional area (e.g., mode or impact)
- Start to delineate the difference between policies and actions

### Phase II

- Incorporate 2050 goals and objectives, begin reorganizing around them
- Identify gaps, opportunities, and redundancy in policies and actions
- Review results of other inputs including scenario planning, stakeholder engagement, and planning studies

### Phase III

- Develop new policies and actions
- Reduce, combine, or eliminate bloated or unnecessary policies and actions
- Further engage on policies and actions as a “draft list,” continuing to refine as 2050 TPP evolves until final adoption

# Policies and Actions Development (2)

## Considerations

### Phase I

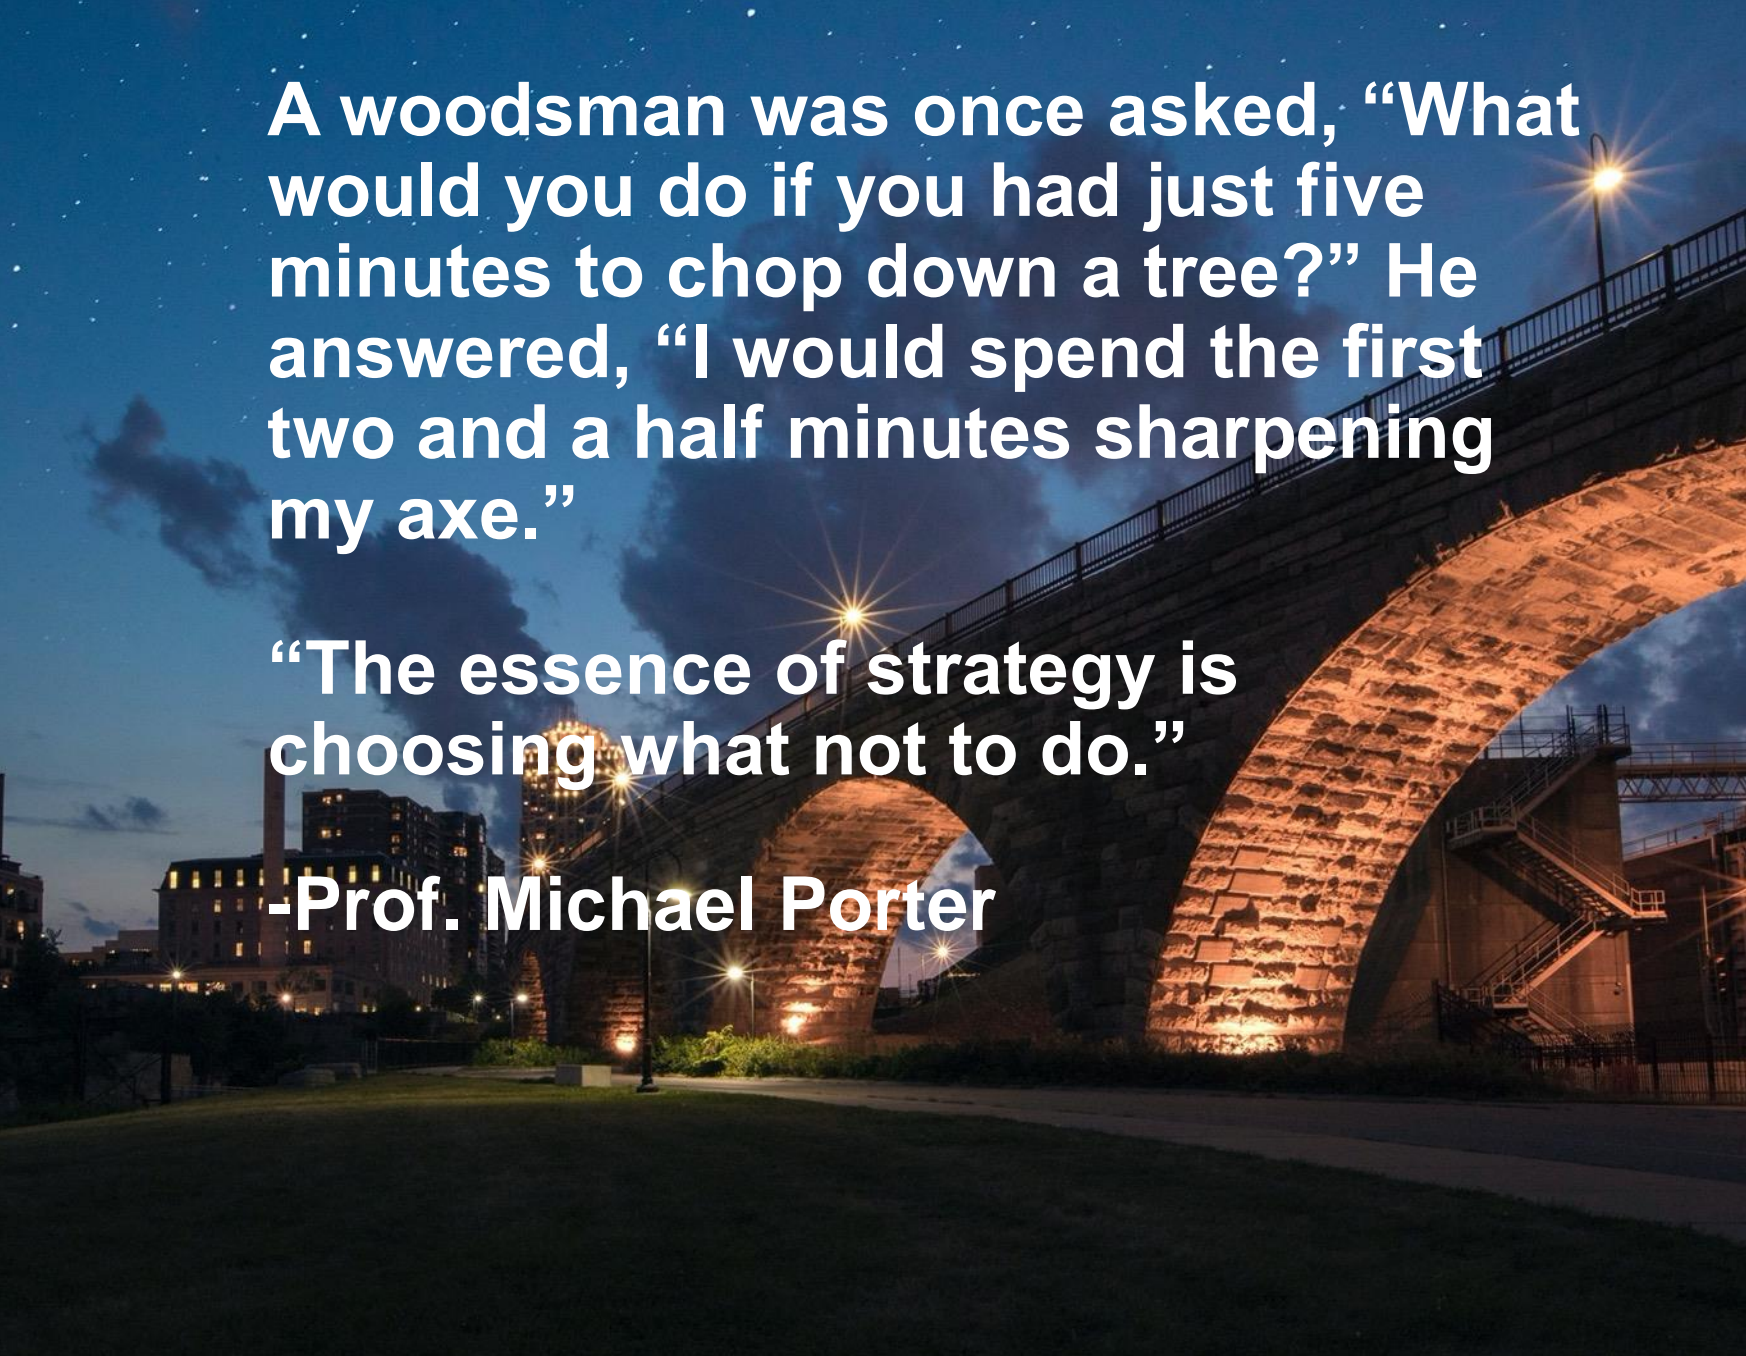

- Previous TPPs
- Existing 2040 TPP strategies
- 2040 TPP investment chapters

### Phase II

- Considering existing practice or de facto policies
- Needs from goals and objectives, scenario planning, local plans

### Phase III

- Collaboratively creating original content
- Look to peer regions, agencies, local governments

A woodsman was once asked, “What would you do if you had just five minutes to chop down a tree?” He answered, “I would spend the first two and a half minutes sharpening my axe.”

“The essence of strategy is choosing what not to do.”

-Prof. Michael Porter

# Policies and Actions Development (3)

## Opportunities for Streamlining

- Focus on the two primary roles of the Transportation Policy Plan
  - Guiding the orderly and economic development of the metro area (Comp Plans)
  - Guiding regional investments in or affecting the regional transportation system
- Make sure we say what is important and what are priorities first and clearly
- Identify actions by acting entity, providing more clarity on what is expected of regional transportation partners
