TPP Goals, Engagement & Review

What's included in this study?

- The TPP Goals, Engagement, and Review study is a precursor to the TPP update.
- Study components include:
 - **Summary** of Existing Plans in the Region and Peer Region Plan Themes
 - Engagement **Listening Sessions and Workshops**—2 phases
 - **Coordination** with Equity Engagement Consultant for additional targeted engagement
 - **Evaluation** of the 2040 TPP, **Recommendations**, and **Summary** Report
- After the study is complete, the Council will use the recommendations to draft new goals and objectives for the 2050 TPP.
 - Anticipated to occur in May.
 - Council will lead additional engagement and review throughout as the 2050 plan is developed throughout 2023-2024.

Engagement Events – Phase 1

Listening Session Content

Generalized Agenda and Discussion Questions

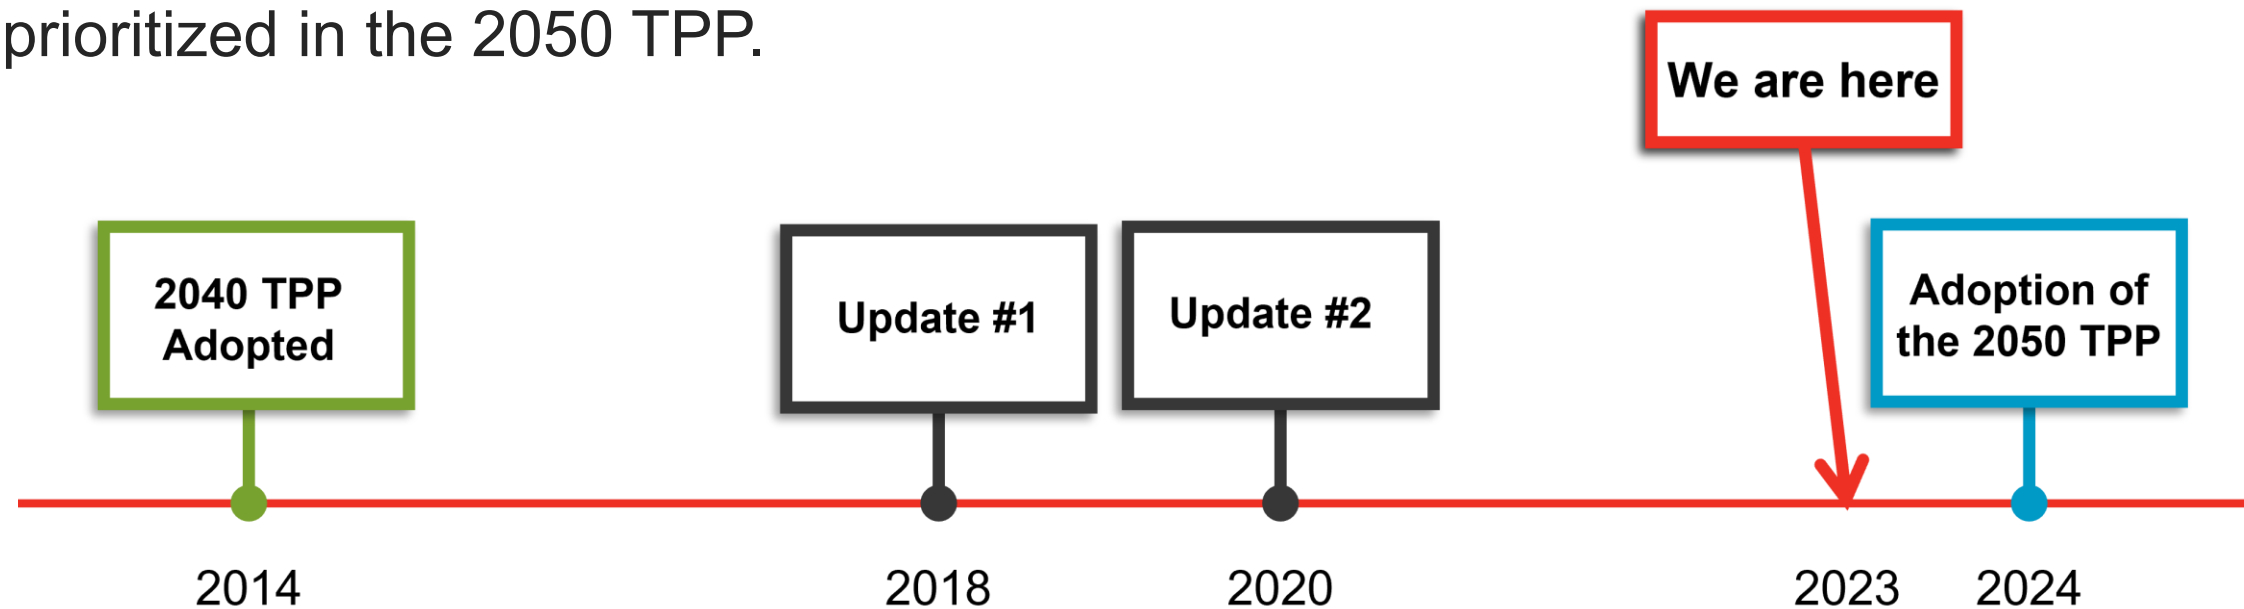

1. Introductions – 10 minutes
2. Overview of the Region's Transportation Policy Plan – 15 minutes
3. Study Background and Goals – 5 minutes
4. Listening Session #1 – 40 minutes
 - How important are each of the region's goals identified in the 2040 Transportation Policy Plan moving forward?
 - What regional transportation-related goals/priorities are important to you in the upcoming decades?
5. Listening Session #2 – 20 minutes
 - How well do you feel the region's existing plan—the 2040 Transportation Policy Plan—reflects the needs and goals of your agency/organization?
 - What do you need from the region's transportation policy plan to bolster your work moving forward?
 - Any additional feedback on the region's 2040 Transportation Policy Plan or recommendations for the 2050 plan update?

A Jotform survey will be provided to participants that cannot attend sessions.

Plan Adoption and Updates

When was the TPP adopted and updated?

- Originally adopted in 2014, the 2040 TPP was updated in 2018 and 2020.
- The 2050 TPP will be adopted in 2024 in conjunction with the 2050 Regional Development Guide.
- This work will help identify what goals and objectives should be emphasized and prioritized in the 2050 TPP.

2040 Plan Direction

What's included in the 2040 TPP?

- **Six goals** make up the vision for the region's transportation system:
 - Transportation System Stewardship
 - Safety and Security
 - Access to Destinations
 - Competitive Economy
 - Healthy and Equitable Communities
 - Leveraging Transportation Investments to Guide Land Use
- These goals are supported by **20 objectives** and dozens of more specific strategies and actions.

2040 Plan Goals ⁽¹⁾

What is the 2040 TPP's strategic direction for the region's transportation system?

- **Transportation System Stewardship**—Sustainable investments in the transportation system are protected by strategically preserving, maintaining, and operating system assets.
- **Safety and Security**—The regional transportation system is safe and secure for all users.
- **Access to Destinations**—A reliable, affordable, and efficient multimodal transportation system supports the prosperity of people and businesses by connecting them to destinations throughout the region and beyond.

2040 Plan Goals ⁽²⁾

What is the 2040 TPP's strategic direction for the region's transportation system?

- **Competitive Economy**—The regional transportation system supports the economic competitiveness, vitality, and prosperity of the region and state.
- **Healthy and Equitable Communities**—The regional transportation system advances equity and contributes to communities' livability and sustainability while protecting the natural, cultural, and developed environments.
- **Leveraging Transportation Investments to Guide Land Use**—The region leverages transportation investments to guide land use and development patterns that advance the regional vision of stewardship, prosperity, livability, equity, and sustainability.

Input on the Region's Transportation Goals & Priorities

Menti Activity

We want to hear from you!

- How important are each of the region's goals identified in the 2040 Transportation Policy Plan moving forward?
- What regional transportation-related goals/priorities are important to your organization in the upcoming decades?

Feedback on the Region's 2040 Transportation Policy Plan

Menti Activity

We want to hear from you!

- How well do you feel the region's existing plan—the 2040 Transportation Policy Plan—reflects the needs and goals of your organization?
- What do you need from the region's transportation policy plan to bolster your work moving forward?
- Any additional feedback on the region's 2040 Transportation Policy Plan or recommendations for the 2050 plan update?
