Work Program				Review	Changes

Chapters to be scheduled: Overview/Imagine 2050 Transportation Chapter, Evaluation & Performance Chapter, Aviation Chapter, Misc. Appendices.

* Tentative schedule depending on progress of inputs.

Organization Comments

Agencies will be provided two copies of each chapter.

A copy to distribute within your organization for review

- This should be shared with technical staff across your organization impacted by the plan, like:
 - Transportation Planning
 - Comprehensive/Land Use Planning
 - Economic Development
 - Public Works
 - Stormwater/Sewer
- Technical Working Group members should work within their respective organization management to consolidate comments into one submission.

A SharePoint document shared with all Technical Working Group members

- This is where you will enter your organization comments and view other agencies' comments.
- Limited to **comments only**; if you have specific language suggestions, enter them in a comment.
- MTS Planning staff will not respond to comments in real time; please contact us via email if you need a specific clarification.
- Contact jed.hanson@metc.state.mn.us if you have access issues or need a question answered.

EXAMPLE CHAPTER

Hanson, Jed ...
The City of Evergreen would prefer this chapter be expanded to cover Santa sleighports and increased need for safe landing places as the region grows and clear zones near housing get developed.
October 20, 2023, 1:35 PM

Brandt-Sargent, Bethany
This is a great idea!
October 20, 2023, 1:48 PM

@mention or reply

Brandt-Sargent, Bethany ...
Have we considered how design standards for chimneys influence the efficiency of gift delivery, especially for oversized gifts?
@mention or reply

Hanson, Jed ...
The City of Evergreen sees an opportunity here to reference research on the happiness benefits the region's youth receive from on-time gift delivery.
A lack of reindeer feeding infrastructure in

The screenshot shows a series of comments on a social media post. The first comment is from Hanson, Jed, dated October 20, 2023, 1:35 PM. The second comment is from Brandt-Sargent, Bethany, dated October 20, 2023, 1:48 PM, and is highlighted with a red rounded rectangle. The third comment is from Brandt-Sargent, Bethany, with the text "Have we considered how design standards for chimneys influence the efficiency of gift delivery, especially for oversized gifts?". The fourth comment is from Hanson, Jed, dated October 20, 2023, 1:48 PM, with the text "The City of Evergreen sees an opportunity here to reference research on the happiness benefits the region's youth receive from on-time gift delivery. A lack of reindeer feeding infrastructure in".

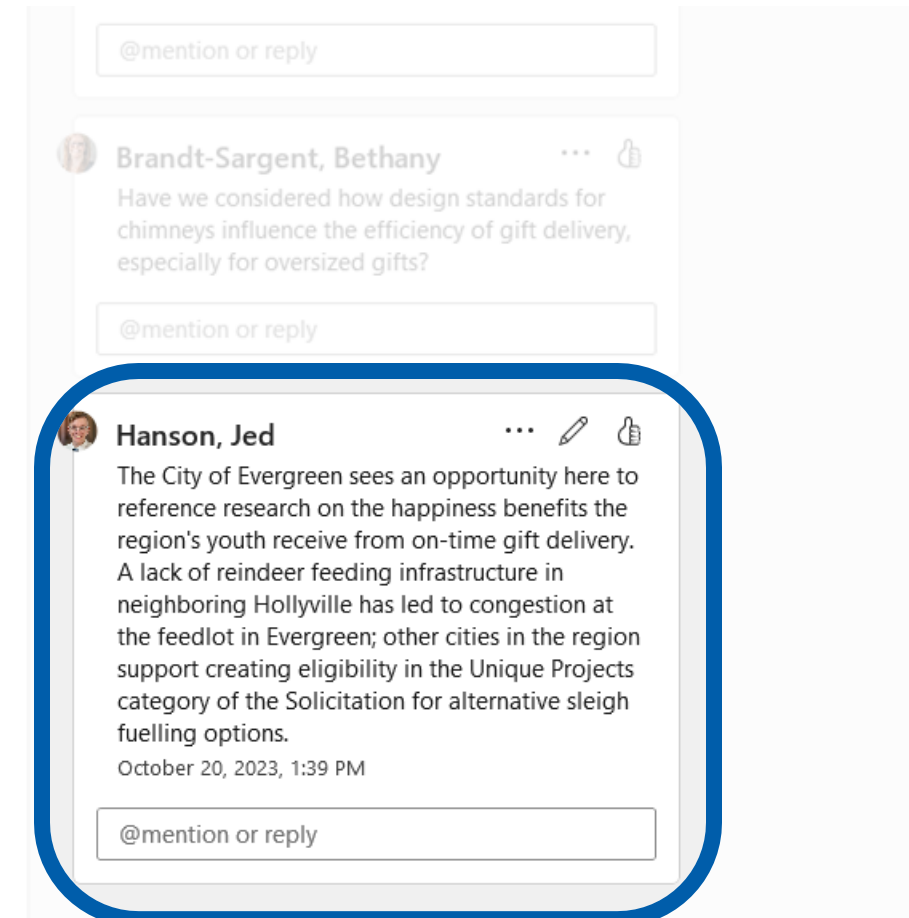

sollicitudin finibus neque faucibus ac. Donec id accumsan nulla. Cras iaculis arcu vitae tellus efficitur, vitae dictum sapien semper. Nunc aliquam, lorem ac faucibus semper, sapien risus iaculis nunc, id dignissim mi leo quis mauris. Praesent scelerisque massa eget venenatis imperdiet.

System Importance

Donec mattis consequat sapien, a suscipit massa semper interdum. Suspendisse malesuada id leo quis bibendum. Phasellus quis facilisis purus. Ut eget tristique lacus. In et ante egestas ex convallis euismod ut sit amet dolor. Etiam auctor nec purus sed mattis. Suspendisse porttitor condimentum libero id tincidunt. Lack of alternative fuelling options for sleighs has created congestion at the few reindeer feeding sites in the region. Integer sapien dui, viverra nec ligula ac, tristique viverra quam. Vestibulum fermentum sapien leo, vitae interdum diam semper quis. In elementum ipsum magna, nec fermentum

The document will not take red-line edits. Please leave any specific language suggestions in a comment.

Comments with organization name and supporting context help us interpret the issue and include in plan language. Suggested text is welcome in comment boxes.

When will chapters be available?

Chapters will become available for review with each meeting notice.

- Meeting invites will include:
 - attached Microsoft Word documents for you to distribute within your organization, and
 - a link to the SharePoint copies for submitting comments.
- Comments are due two weeks before the next Technical Working Group meeting.
Transit chapter timeline as an example:
 - January 4: Draft Transit chapter emailed and available on SharePoint
 - January 11: Technical Working Group hears the Transit chapter presentation
 - January 25: Organization comments on Transit chapter due
 - February 8: Met Council staff summarize Transit chapter comments and general approach to changes
- Trailing comments are welcome; please follow-up with jed.hanson@metc.state.mn.us

Technology Notes

Met Council requires two-factor authentication to access our SharePoint sites.

- Many Technical Working Group members already have access to our *External 2050 Transportation Policy Plan* site. Please visit this link and confirm you can login.

[Draft Chapters for Organization Review](#)

- Newer members may not have seen an agenda item requiring access yet. You will receive invitations to join and a guide on how to setup two-factor authentication.
- Please contact jed.hanson@metc.state.mn.us with any questions.
