CHAPTER 5: IMPLEMENTATION

OVERVIEW - USING THE ACTION PLAN, A TOOL KIT

The 101 Corridor Marketing Plan, combined with the City of Shakopee’s Comprehensive Plan are intended to establish the big picture decision making by City officials, staff, key stakeholders and the public. How will staff, City officials, and stakeholders take the actions outlined in the Marketing Plan, which are more general in scope and translate it into rational and defensible choices about making changes with the City? It is intended to act as a guide to evaluating new projects, actions and initiatives and to help with decision making city-wide and within downtown. The implementation section helps to:

- Organize the actions and demonstrate the interconnected benefits of each project, action or initiative.
- Create a set of principles on which to evaluate projects/ initiatives.
- Provide a prioritization of key projects at the forefront of the Downtown.
- Provide a master “timeline” of the actions outlined in the report.

THE DECISION PRINCIPLES CHECKLIST

The Decision Principles Checklist is a set of critical questions based on the core values of the Action Plan. When faced with a new initiative or project all the questions should be asked. Not every action will receive a “check” for every question, but each question should be asked during the evaluation process. Simply because a certain consideration for an action meets many or few principles it should not be the sole grounds for acceptance or rejection, but it should be a significant factor in the decision process. If an action does not receive a “check,” critical questions need to be asked about how the project can be adapted to meet a decision principle and, if it cannot be adapted, whether the action meets enough other decision principles to justify moving forward. The Decision Principles tool can be particularly effective when comparing several competing actions.

- Will the action enhance business and development opportunities?
- Will the action increase the tax base in the downtown?
- Does the action fill a vacancies in retail street frontage?
- Does the action create a vertical mix of uses (i.e., housing above retail)?
- Will the action increase the number of visits downtown?
- Does this action redevelop underutilized land in the downtown area?
- Does this action provide more retail and/or entertainment options?
- Does this action increase the number of housing options downtown?
- Does this action diversify the mix of living units downtown?
- Does the action provide better connection to the Minnesota River?
- Will the action promote walking & biking in downtown?
- Does the action create a multi-modal network of transportation?
- Will the action help visitors navigate downtown and cross physical barriers?
- Does the action create a venue for public gathering?
- Does this action offer more opportunities for people of all ages to gather downtown?
- Does the action reinforce the historic downtown character?
- Will the action diversify the reasons to visit or live downtown?
- Are life cycle and operational costs sustainable?
- Does the action hold true to the downtown’s vision?
- Will the action leverage other investments?
- Does the action improve downtown’s organizational structure?
Economic Development – Day-to-Day Operations

- Access to Materials, Markets, & Talents
- Investments in Infrastructure & Amenities
- Economic Competition
What Planners Say About Economic Development

- Involve Your Economic Development Staff in the Development Review Process
- Utilize a Mapping System of Available Sites
- Be Aware of What Incentives Your City Offers
- Planning and Economic Development Departments Should Be Connected
- Build Relationships
- Know What Industries Your Community is Trying to Attract
- Create Policies, Plans, & Codes that are Supportive of Economic Development

What Economic Development Professionals Say About Planning

- Promote & Emphasize Infrastructure
- Work With Local Chambers on BRE Efforts
- Focus on Running a Good City
- Enhance the Sustainable Economic Development Capacity of Your City
- Follow Trends in Changing Technology
- Increase Entrepreneurial Activity
- Increase Productivity of Existing Establishments

The Business Perspective

“We want to locate where we are wanted, where government appreciates our contribution to the economy, and values local ownership, where people understand that it is a good thing for the community if we make money. We want to work with officials who are focused on growing the economic pie, and who value our business activity. We want local government to create a favorable playing field for all business activity, and to be active in keeping track of the “customer satisfaction level” of its businesses. We want to be in a city where government is strategically focused on providing a business-friendly place.”

- Raleigh, North Carolina
- Sussex County, Delaware
- Lancaster, Pennsylvania
- Sterling, Illinois
- Wisconsin
- Stillwater, Minnesota
Sussex County Council

Sussex County Council

REPORT TO GOVERNOR'S ADVISORY COUNCIL ON PLANNING

SUSSEX COUNTY

2015-2016

JULY 1, 2016

INTRODUCTION

Sussex County's current Comprehensive Land Use Plan was adopted on June 23, 2008 (the "Plan"). Each year after adoption, Sussex County is required to prepare a Report on the status of its Plan for submission to the Cabinet Committee on State Planning issues and the Office of the State Planning Coordination ("OSPC"). This is the Fifth Annual Report to the Cabinet Committee on State Planning Issues and OSPC covering the one-year period between July 1, 2015 and June 30, 2016. This Report is intended to comply with Title 6, Section 695A of the Delaware Code.

Source: NBS Gov
Lancaster, Pennsylvania

PLAN FOCUS

The focus for this Plan includes the Downtown Core and the Commercial Hubs that serve as neighborhood centers for the City:

1. Downtown Core
2. East King Street
3. West King Street and Manor Street
4. South Duke Street
5. South Prince and Queen Streets
6. Harrisburg Avenue/Northwest Gateway
7. Train Station Area
8. New Holland Avenue

PLAN OUTCOMES

Looking Ahead: The Future of Lancaster City
By 2030 Lancaster City will:

• Increase in the per capita income to 70% of that of Pennsylvania.
• Have 300 new hotel rooms in the Downtown and Commercial Hubs.
• See 2,500 new residential units constructed.
• Achieve 100,000 square feet of new and renovated retail/restaurant space in Downtown and Commercial Hubs.
• Fill/create 300,000 square feet of office and flex space.
• Realize $1 billion in private capital investment.
• See ongoing private investment that will outweigh public investment in economic development.
3. Making It Happen

a. Pursue Regionally-based Economic Development
   - Mature and expand the Sauk Valley Partnership
   - Engage in targeted business recruitment
   - Partner with outside investors including Union Pacific Railroad
   - Involve business leaders

b. Build Institutional Supports
   - Establish young professionals networks
   - Establish Downtown Sterling Unlimited (development corp.)
   - Formalize the Sauk Valley Partnership
   - Create individual project management teams for major projects, initiatives

c. Downtown/Riverfront Reinvestment
   - Work with the hospital and local companies to develop employee walk-to-work programs (down-payment assistance, forgivable loans) targeted toward specific neighborhood reinvestment zones.
   - Organize, mobilize Downtown Business Association
   - Establish a Downtown Redevelopment Authority
   - Program Downtown for special events, activities
   - Capitalize façade improvement grants and start up loans for Downtown businesses
Wisconsin
PlanIt

Stillwater, Minnesota

Stillwater is a small college town located in the Twin Cities
metropolitan area, just an hour south of Minneapolis and
one hour north of St. Paul. The area is a great place to live,
work, and play, with a variety of amenities and activities
that cater to everyone's interests. Whether you're looking
for a quiet community or a more urban experience, Stillwater
has something for you.
