Housing Performance Scores—The Score(s)—are used to give priority in funding to cities and townships that are maintaining or expanding their supply of affordable housing and using fiscal, planning, and regulatory tools to promote affordable and mixed-income housing.

We use the Scores in our <u>Livable Communities Demonstration Account</u> and <u>Tax Base Revitalization Account</u> to reward communities that have a demonstrable commitment to providing affordable housing options. At the same time, the Council assists affordable housing development in communities struggling with housing performance. For example, the Council gives preference to communities with lower Housing Performance Scores in funding decisions for the <u>Local Housing Incentives Account</u>, which has funded more than one-third of the affordable units produced through the <u>Livable Communities Act</u> programs.

The Scores are based on data provided by Minnesota Housing Finance Agency (MHFA) and county governments. We also ask local jurisdictions for additional information not available from other sources. For more information on how we use and calculate the Scores, please visit our website at: http://metrocouncil.org/housing/theScore.
