Set up your phone for two-step sign-in

These instructions explain how to set up your Internet-connected mobile phone or your corded (landline) phone to remotely and securely access your Met Council account.

The instructions continue from the initial multi-factor authentication (MFA) directions you followed to select your two verification options from the four available: authenticator mobile app, phone, email, and security questions. Be sure you read through this before you begin the setup steps.

1. If you have already selected Phone as your first method (shown in the image at right), then click the "**Close**" button and go to Step 2. If you did not, make the changes in this step. If you need to complete the Phone setup or change your second method preference, go back to the main MFA Registration Instructions. When you're done, continue with Step 2 of these instructions.	**Choose security info** FIRST METHOD [Phone ⌄] SECOND METHOD [Authenticator App **or** Email; **or** Security Questions ⌄] [Close]
2. Start setting up your phone by keying in the phone number you want to use. Select your prefrence to receive either a phone call or a text message. Click "**Next**."	**Set up your phone** What phone number do you want to use? [United States (+1) ⌄] [952-486-▨▨▨▨] ◉ Call me ○ Text me a code [Cancel] [Next]
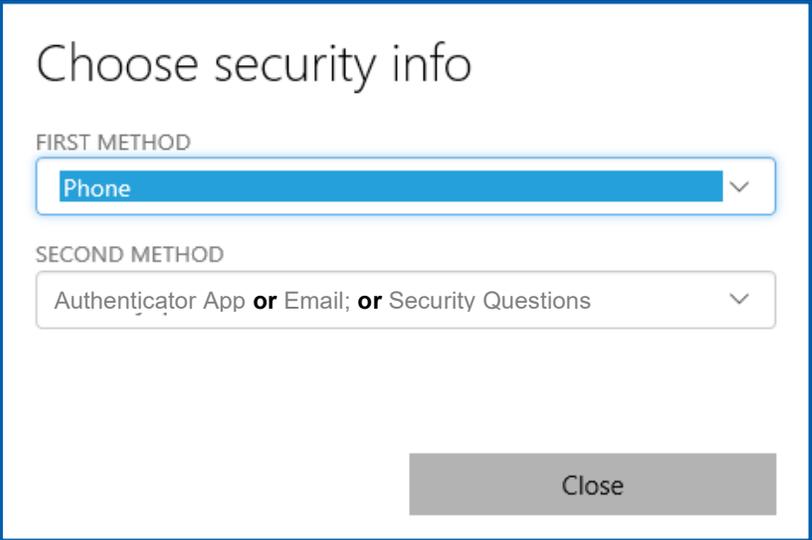

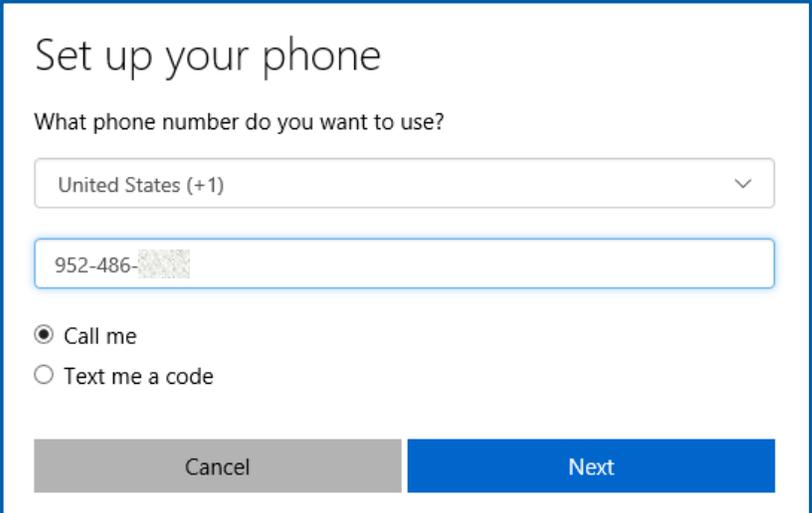

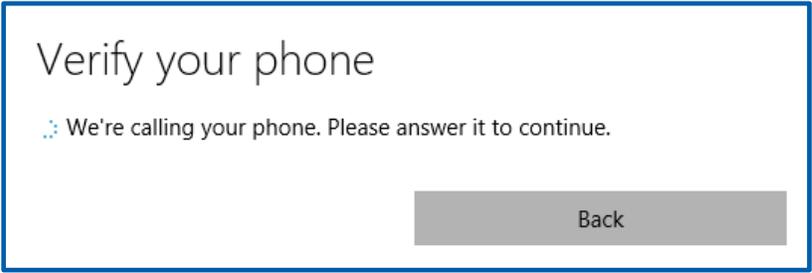

3. The system will start the verification process by calling your phone or sending a text message, based on the method you selected in Step 2 above. Answer your phone.	Verify your phone .:. We're calling your phone. Please answer it to continue. Back
4. Click "**Done**." **Congratulations!** You have successfully set up your phone for more secure access to your Met Council account.	Verify your phone ✓ Call answered Done
