The Metropolitan Council is the regional planning organization for the seven-county Twin Cities area. The Council operates the regional bus and rail system, collects and treats wastewater, coordinates regional water resources, plans and helps fund regional parks, and administers federal funds that provide housing opportunities for low- and moderate-income individuals and families. The 17-member Council board is appointed by and serves at the pleasure of the governor.

On request, this publication will be made available in alternative formats to people with disabilities. Call Metropolitan Council information at 651-602-1140 or TTY 651-291-0904.

## Introduction

The seven-county Twin Cities metropolitan area is home to a system of regional parks and trails that are nationally renowned for their beauty, size and variety of features. With 54 regional parks and preserves, comprising nearly 55,000 acres, approximately 350 miles of interconnected trails, and eight special recreation features, the system provides a wealth of opportunities for recreation, exercise, and just plain fun. It also preserves significant green space and wildlife habitat.

The Metropolitan Council produces estimates of visits to the Regional Parks System annually. This report highlights the estimated number of visits to the Regional Parks System for 2016. Visit data is collected within each unit (104 park and trails overall) and extrapolated to produce an annual estimate.

The Regional Parks System draws more than 47 million visits every year—more than the Mall of America—and makes communities in the region more vital and attractive.

The Regional Parks System is operated by 10 partner agencies, including cities, counties, and special park districts, which work with the Council to protect natural resources and provide outdoor recreation for public enjoyment. The Council provides long-range system planning, investment, and coordination.

The Regional Parks System is comprised of four types of parks and trails: 1) Regional Parks (RP), 2) Park Reserves (PR), 3) Regional Trails (RT), and 4) Special Recreation Features (SRF).

*Chain of Lakes Regional Park,  
Minneapolis Park & Recreation Board*

## 2016 Highlights

- An estimated 47.8 million visits were made to the Regional Parks System in 2016.
- Annual visits increased 1.1% from 2015 to 2016.

*Lake Elmo Park Reserve,  
Washington County*

- Since 2006, annual visits have increased by over 11 million. During that same timeframe, many new regional parks and trails were added to the Regional Parks System.
- Three new regional trails were added to the system in 2016: Crystal Lake Regional Trail, Nokomis-Minnesota Regional Trail and Saint Paul's portion of the Trout Brook Regional Trail.

*Baker Park Reserve,  
Three Rivers Park District*

- Overall, 27% of all visits in 2016 were to regional trails and 73% were visits to regional parks, park reserves and special recreation features.
- Although Anoka County Riverfront, Minneapolis Chain of Lakes, and Mississippi Gorge are regional parks, the majority of visits to these parks are for trail use. If the trail visits to these regional parks were included in the trail totals, 41% of all 2016 visits were to regional trails.
- Approximately 55% of all estimated visits occurred in regional parks and trails in the cities of Minneapolis and Saint Paul.

- The share of visits to Minneapolis and Saint Paul parks and trails in the regional system has decreased over time. The decrease is likely due to the addition of park and trail facilities and population growth occurring outside the two cities.
- Regional park visits increased most significantly in the City of Bloomington (14.1%), followed by Dakota County regional parks and trails (13.9%).
- Scott County and Ramsey County saw the most significant decline in visits to their regional parks and trails from the preceding year (-11.7% and -7.7%, respectively).
- In 2016, nearly 12% of the total Regional Parks System visits were to Minneapolis Chain of Lakes Regional Park.

*Spring Lake Park Reserve,  
Dakota County*

**Table 1. The Top-five most frequently visited parks in the Regional Parks System**

	<b>2016 Visits</b>
1. Minneapolis Chain of Lakes Regional Park	5.7
2. Como Regional Park, Zoo and Conservatory Special Recreation Feature	4.3
3. Mississippi Gorge Regional Park	3.7
4. Central Mississippi Riverfront Regional Park	2.1
5. Minnehaha Regional Park	1.7

All visits are listed in 1,000s.

- The Regional Parks System is visited year-round and provides camping at special events throughout the year. The most popular time to visit regional parks is during the summer months (41%).

Figure 1. 2016 Distribution of Regional Parks System visits

- Based on calculations from the *Metropolitan Council Regional Parks and Trails Survey 2008*, 55% of all visits to regional parks and trails are “local” visits. A local visit is a visit to a park or trail by a person who lives within the jurisdiction of the park agency that owns or operates that park or trail. Conversely, 45% of all visits to regional parks and trails are “non-local” visits, which demonstrate that the system serves a regional purpose.

Phalen-Keller Regional Park  
Saint Paul & Ramsey County

## How the Annual Use Estimate is Calculated

One person entering a park or trail represents one visit. If a person visits a park or trail once each week for a year, that is 52 visits.

### Counting Park and Trail Visits

The annual use estimate is based on the average of four years (2013 – 2016) of summer counts of bikers and cyclists, pedestrians, horse-riders, boats, vehicles, and charter buses that enter the park through recognized park entrances. People in vehicles and buses are not counted individually. To determine the number of people entering in vehicles or buses, a person-per-vehicle average is multiplied by the number of vehicles or buses in each sample count. The person-per-vehicle averages come from the *Metropolitan Council Regional Parks and Trails Survey 2008*.

The Regional Parks System annual use estimate has been calculated since 1995

Counts are taken in two-hour samples between Memorial Day and Labor Day. Two-hour samples begin at 8 a.m., 10 a.m., 12 p.m., 2 p.m., 4 p.m. and 6 p.m. The entrances and times are randomly chosen with the samples split evenly between weekdays and weekends. To accurately estimate summer use, at least 25 samples on weekends and 25 samples on weekdays in each park and trail are necessary, but it is cost-prohibitive to do 50 samples per park and trail every year.

### *Averaging Counts to Reduce Anomalies*

The samples for the current year and the three previous years are combined to determine the annual use for each park and trail. For each year, at least 16 samples are drawn for each park and trail. The four-year approach results in a minimum of 32 samples on weekends and 32 samples on weekdays, which meets the statistical requirements for estimated visits.

*Baylor Regional Park,  
Carver County*

*Bunker Hills Regional Park,  
Anoka County*

The four-year approach reduces the effect of extreme weather or other anomalies on each park's estimated visitation. It reduces the effects of a temporary closure of a popular facility and road construction to the facility. The four-year average also somewhat underestimates increased visitation associated with a major new facility such as a swim pond or play structure. By the fourth year of the facility's existence, its visitation is fully represented in the data. The annual estimate makes no attempt to correct for overestimates for temporary closures or underestimates for facility additions. All agencies in the regional system are adding desirable facilities and experiencing temporary closures of facilities that are being redeveloped. Therefore, it is believed that the four-year average has negligible effects when comparing visitation across agencies.

### *Season Calculations and Additional Data*

Summer visitation is calculated by taking the total number of people entering the park during each sample and multiplying it by the number of entrances and time slots that sample represents. Winter, spring and fall seasonal visitation estimates are then calculated from the summer visitation using seasonal multiplier data derived from the [\*Metropolitan Council Regional Parks and Trails Survey 2008\*](#).

Camping visits are also added to the annual estimate. A camping visit is defined as a camper in the park for any part of a day, so a family of four who camped one night would be counted as 8 total visits. Special events are also added to the annual use estimate when the attendance was greater than 300 people and the event did not take place during the sample counts. If sample counts occurred during a special event, counts were not included in the estimate. Camping and special event data are not averaged across four years since the implementing agencies have records reflecting those types of visits on an annual basis.

*Mississippi River Regional Trail,  
Dakota County*

Three Rivers (Scott County)	302.4	338.2	35.8	11.8%
Washington	1,404.1	1,347.9	(56.2)	-4.0%
<b>Total</b>	<b>47,349.6</b>	<b>47,860.6</b>	<b>511.0</b>	<b>1.1%</b>

**Table 6: Comparison of 2015 and 2016 park vs. trail visitation**

	<b>2015</b>	<b>2016</b>	<b># change</b>	<b>% change</b>	<b>% of all visits in 2016</b>
	<i>(1,000's)</i>	<i>(1,000's)</i>	<i>(1,000's)</i>		
Trail Visits <sup>1</sup>	12,643.8	13,050.8	407.0	3.2%	27.3%
Park/Reserve/SRF Visits	34,610.0	34,809.7	199.7	0.6%	72.7%
Total Visits	47,349.6	47,860.6	511.0	1.1%	100.0%

**Notes:**

<sup>1</sup> About 80% of all visits to the Minneapolis Chain of Lakes and Anoka County Riverfront RP are trail visits. Mississippi Gorge Regional Park is also more similar to a parkway with a regional trail than a regional park. However, the above trail totals do not include those trail visits.

Values are rounded.

If Mississippi Gorge, Minneapolis Chain of Lakes, and Anoka County Riverfront RP trail visits are included in the regional trail total, 41.3% (19.8 million) of all visits are trail visits.

**Table 7: Most-visited regional parks and trails - 2016**

Rank by visits	Park/trail	Agency	2015 Visitation (1,000's)	Cumulative percent of total visitation
1	Minneapolis Chain-of-Lakes RP	Minneapolis	5,681.5	11.9%
2	Como RP, Zoo & Conservatory SRF	Saint Paul	4,250.9	20.8%

<b>Total</b>			<b>31,864.8</b>	
<b>Percent of 2016 Visitation</b>			<b>66.6%</b>	

Note: Totals rounded.

**Table 8: Urban parks and trails visits - 2016**

Agency	2016 Visitation (1,000's)
Minneapolis Parks Total	17,133.6
Saint Paul Parks Total	9,193.0
<b>Urban Total</b>	<b>26,326.6</b>
<b>Urban Percentage of 2016 visitation</b>	<b>55.0%</b>

Note: Totals rounded.

**Table 9: Como visits - park and zoo/conservatory**

Park Unit	2016 Visitation (1,000's)	2016 %
Como Zoo & Conservatory SRF <sup>1</sup>	3,366.7	79.2%
Como Park (non-zoo/conservatory visits)	884.2	20.8%
<b>Como Total</b>	<b>4,250.9</b>	<b>100%</b>

**Notes:**

<sup>1</sup> Como Zoo & Conservatory Special Recreation Feature estimates are based on visitor interviews conducted in 2008. That data indicated that 79.2% of all Como visitors were primarily visiting the Zoo & Conservatory.

Totals rounded.

**Table 10: Visitation estimates by agency for operations and maintenance funding formula purposes - 2016**

<b>Agency</b>	<b>2016 Visitation (1,000's)</b>	<b>Percentage of total <sup>1</sup></b>
Anoka County	3,360.04	7.04%
Bloomington	755.16	1.58%
Carver County	582.79	1.22%
Dakota County	1,293.74	2.71%
Minneapolis Park & Recreation Board	17,133.59	35.92%
Ramsey County	3,526.35	7.39%
Saint Paul	9,193.00	19.27%
Scott County	293.14	0.61%
Three Rivers Park District - Hennepin <sup>2</sup>	9,875.34	20.70%
Three Rivers Park District - Scott	338.23	0.71%
Washington County	1,347.87	2.83%
<b>TOTAL</b>	<b>47,699.25</b>	<b>100.00%</b>

**Notes:**

<sup>1</sup> Percentages are given to the second decimal point for use in the O&M funding formula.

<sup>2</sup> O&M visitation estimates do not include enterprise facility visitation (downhill skiing at Hyland-Bush-Anderson Lakes PR).

<b>% of 2016 visits</b>		73%		27%		100%

**Notes:**

<sup>1</sup> Activity pattern data of regional park and trail visitors was collected in 2008 and published in the *Metropolitan Council Regional Parks and Trails Survey 2008*. The activity patterns were applied to the 2008 visit estimate to generate this table. Visitors could do more than one activity during their visit to a regional park or trail. Each time they participated in an activity, it was considered an activity occasion. Therefore, the total number of activity occasions is greater than the actual number of visits.

<sup>2</sup> "Relaxing" was a general activity on a list of activities that park visitors used to indicate what they did during their park visit. This activity was not specifically defined.

<sup>3</sup> For trail visits, survey respondents indicated that the trails were providing access to these activities. For example, 2% of trail visits provided access to swimming and 1% of trail visits provided access to fishing.

**Table 13: Visitor origin by agency <sup>1</sup>**

## Acknowledgements

The Metropolitan Regional Parks System is owned and operated by ten city, county, or special park districts. Each agency is responsible for conducting the annual counts for their respective Regional Parks System units. The 2016 annual use estimate counts are the result of over 4,600 staff hours across all the ten agencies, along with significant time dedicated to staff training and oversight. Without the help of these ten agencies, the annual use estimate would not be possible. The agencies and their count supervisors are as follows:

Anoka County—Cindy Bornetun  
City of Bloomington—Mark Morrison  
Carver County—Sam Pertz  
Dakota County—Doug Gross and Jessica Montgomery  
Minneapolis Park and Recreation Board—Madeline Hudek  
Ramsey County—Jennifer Fink  
City of Saint Paul—Eric Thompson  
Scott County—Patricia Freeman and Thomas Mercier  
Three Rivers Park District—Thomas Mercier  
Washington County—Lori Myers and Steven Hart
