---

**Project Information**

**Project Name**
Farmington North Creek Greenway Gap

**Primary County where the Project is Located**
Dakota

**Jurisdictional Agency (If Different than the Applicant):**
The application seeks funding for the North Creek Greenway-Farmington trail connection, a multi-use trail that will eliminate two gaps in north Farmington. One segment extends from just east of 189th St W to the north across North Creek about 0.07 miles to an existing trail that extends into Lakeville. The other segment extends from 195th St W to just south of 208th St W about 1.79 miles in length and includes a crossing of Middle Creek.

The North Creek Greenway is a high priority segment of the 2030 Dakota County Park System Plan’s vision for over 200 miles of greenways. With 75% of the North Creek Greenway completed or funded for construction in the next few years, elimination of this gap is important to reducing the confusion and frustration of an incomplete system as well as improving overall system accessibility and connectivity. The North Creek Greenway functions as an element of the Metropolitan Region’s surface transportation system and regional trail system. It will link users to regional and local destinations in central Dakota County, including Downtown Farmington, the Vermillion River, the Minnesota Zoo, Lebanon Hills Regional Park, and Whitetail Woods Regional Park.

Locally, the North Creek Greenway-Farmington segment will provide a safe and convenient space for cyclist and pedestrian transportation with no vehicular crossings. The first segment will bridge an existing gap in the trail system located just north of 189th St W. The longer segment will begin at 195th Street near Jim Bell Park and Preserve and use the underpass of 195th Street to travel south along the west side of North Creek until the creek itself veers east. At that point the trail will continue south, crossing Middle Creek, to the Vermillion River where it can connect to two schools, parks, three commercial areas, Rambling River Senior Center, and Downtown Farmington. Trail construction includes site clearing, trail bed preparation and surfacing, orientation signage, pedestrian bridges,
landscaping and site restoration. This request also involves the construction of a 12-foot wide by 30-foot long bridge over Middle Creek.

North Creek Greenway, Farmington, from existing trail to 189th St W and from 195th to just south of 208th St W- construct multi-use trail with two bridges

**Project Length (Miles)**
1.8

**Project Funding**

Are you applying for funds from another source(s) to implement this project?
No

If yes, please identify the source(s)

Federal Amount
$1,043,480.00

Match Amount
$260,870.00

Minimum of 20% of project total

Project Total
$1,304,350.00

Match Percentage
20.0%

Minimum of 20%

Compute the match percentage by dividing the match amount by the project total

Source of Match Funds
Dakota County CIP

A minimum of 20% of the total project cost must come from non-federal sources; additional match funds over the 20% minimum can come from other federal sources

Preferred Program Year
Select one: 2021

For TDM projects, select 2018 or 2019. For Roadway, Transit, or Trail/Pedestrian projects, select 2020 or 2021.

Additional Program Years:
Select all years that are feasible if funding in an earlier year becomes available.

**Project Information**

County, City, or Lead Agency
City of Farmington

Zip Code where Majority of Work is Being Performed
55024

(Approximate) Begin Construction Date
05/01/2021

(Approximate) End Construction Date
11/30/2022

Name of Trail/Ped Facility:
Farmington North Creek Greenway Gap

(i.e., CEDAR LAKE TRAIL)
TERMINI: (Termini listed must be within 0.3 miles of any work)

From: 185th Street W

To: Vermillion River and Downtown Farmington (Just south of 208th St W)

DO NOT INCLUDE LEGAL DESCRIPTION; INCLUDE NAME OF ROADWAY IF MAJORITY OF FACILITY RUNS ADJACENT TO A SINGLE CORRIDOR

Or At:

Primary Types of Work

Grade, Aggregate Base, Bituminous Base, Bituminous Surface, Bridge (2)

Examples: GRADE, AGG BASE, BIT BASE, BIT SURF, SIDEWALK, SIGNALS, LIGHTING, GUARDRAIL, BIKE PATH, PED RAMPS, BRIDGE, PARK AND RIDE, ETC.

BRIDGE/CULVERT PROJECTS (IF APPLICABLE)

Old Bridge/Culvert No.: N/A

New Bridge/Culvert No.: Yes

Structure is Over/Under (Bridge or culvert name): 1 - Over North Creek, 2 - Over Middle Creek

**Requirements - All Projects**

**All Projects**

1. The project must be consistent with the goals and policies in these adopted regional plans: Thrive MSP 2040 (2014), the 2040 Transportation Policy Plan, the 2040 Regional Parks Policy Plan (2015), and the 2040 Water Resources Policy Plan (2015).

   Check the box to indicate that the project meets this requirement.  Yes

2. The project must be consistent with the 2040 Transportation Policy Plan. Reference the 2040 Transportation Plan objectives and strategies that relate to the project.
List the goals, objectives, strategies, and associated pages:

Goal: Healthy Environment (pg. 66)

Objectives: C) Increase the availability and attractiveness of transit, bicycling, and walking to encourage healthy communities and active car-free lifestyles. (pg. 66) D) Provide a transportation system that promotes community cohesion and connectivity for people of all ages and abilities, particularly for historically under represented populations. (pg. 66)

Strategies: 1) Regional transportation partners will plan and implement a transportation system that considers the needs of all potential users, including children, senior citizens, and persons with disabilities, and that promotes active lifestyles and cohesive communities. A special emphasis should be placed on promoting the environmental and health benefits of alternatives to single-occupancy vehicle travel. (pg. 2.12)

Goal: Access to Destinations (pg. 62)

Objectives: D) Increase transit ridership and the share of trips taken using transit, bicycling and walking. (pg. 62) E) Improve multimodal travel options for people of all ages and abilities to connect to jobs and other opportunities, particularly for historically underrepresented populations. (pg. 62)

Goal: Leveraging Transportation Investment to Guide Land Use (pg. 70)

Objectives: C - Encourage local land use design that integrates highways, streets, transit, walking, and bicycling. (pg. 70)

Strategies: 2) Local governments should include bicycle and pedestrian elements in local comprehensive plans. (pg. 2.15)
Goal: Competitive Economy (pg. 64)

Objectives: B) Invest in a multimodal transportation system to attract and retain businesses and residents.

Strategies: 1) The Council and its transportation partners will identify and pursue the level of increased funding needed to create a multimodal transportation system that is safe, well-maintained, offers modal choices, manages and eases congestion, provides reliable access to jobs and opportunities, facilitates the shipping of freight, connects and enhances communities, and shares benefits and impacts equitably among all communities and users. (pg. 2.11)

2) The Council and its partners will invest in regional transit and bicycle systems that improve connections to jobs and opportunity, promote economic development, and attract and retain businesses and workers in the region on the established transit corridors. (pg. 2.11)

(List 2500 characters; approximately 750 words)

3. The project or the transportation problem/need that the project addresses must be in a local planning or programming document. Reference the name of the appropriate comprehensive plan, regional/statewide plan, capital improvement program, corridor study document [studies on trunk highway must be approved by the Minnesota Department of Transportation and the Metropolitan Council], or other official plan or program of the applicant agency [includes Safe Routes to School Plans] that the project is included in and/or a transportation problem/need that the project addresses.

- The North Creek Greenway Master Plan ? pages 70-72

- Farmington 2030 Comprehensive Plan ? page 6

- The Dakota County 2030 Park System Plan ? pages 2.15 and 4.7

- Vermillion River Corridor Plan 2010 ? pages 40 & 58

- 2030 Regional Parks Policy Plan
4. The project must exclude costs for studies, preliminary engineering, design, or construction engineering. Right-of-way costs are only eligible as part of bicycle/pedestrian projects, transit stations/stops, transit terminals, park-and-ride facilities, or pool-and-ride lots. Noise barriers, drainage projects, fences, landscaping, etc., are not eligible for funding as a standalone project, but can be included as part of the larger submitted project, which is otherwise eligible.

Check the box to indicate that the project meets this requirement. Yes

5. Applicants that are not cities or counties in the seven-county metro area with populations over 5,000 must contact the MnDOT Metro State Aid Office prior to submitting their application to determine if a public agency sponsor is required.

Check the box to indicate that the project meets this requirement. Yes

6. Applicants must not submit an application for the same project in more than one funding sub-category.

Check the box to indicate that the project meets this requirement. Yes

7. The requested funding amount must be more than or equal to the minimum award and less than or equal to the maximum award. The cost of preparing a project for funding authorization can be substantial. For that reason, minimum federal amounts apply. Other federal funds may be combined with the requested funds for projects exceeding the maximum award, but the source(s) must be identified in the application. Funding amounts by application category are listed below.

- **Multiuse Trails and Bicycle Facilities**: $250,000 to $5,500,000
- **Pedestrian Facilities (Sidewalks, Streetscaping, and ADA)**: $250,000 to $1,000,000
- **Safe Routes to School**: $150,000 to $1,000,000

Check the box to indicate that the project meets this requirement. Yes

8. The project must comply with the Americans with Disabilities Act.

Check the box to indicate that the project meets this requirement. Yes

9. The project must be accessible and open to the general public.

Check the box to indicate that the project meets this requirement. Yes

10. The owner/operator of the facility must operate and maintain the project for the useful life of the improvement.

Check the box to indicate that the project meets this requirement. Yes

11. The project must represent a permanent improvement with independent utility. The term independent utility means the project provides benefits described in the application by itself and does not depend on any construction elements of the project being funded from other sources outside the regional solicitation, excluding the required non-federal match. Projects that include traffic management or transit operating funds as part of a construction project are exempt from this policy.

Check the box to indicate that the project meets this requirement. Yes

12. The project must not be a temporary construction project. A temporary construction project is defined as work that must be replaced within five years and is ineligible for funding. The project must also not be staged construction where the project will be replaced as part of future stages. Staged construction is eligible for funding as long as future stages build on, rather than replace, previous work.

Check the box to indicate that the project meets this requirement. Yes

13. The project applicant must send written notification regarding the proposed project to all affected state and local units of government prior to submitting the application.

Check the box to indicate that the project meets this requirement. Yes

---

**Requirements - Bicycle and Pedestrian Facilities Projects**

1. All projects must relate to surface transportation. As an example, for multiuse trail and bicycle facilities, surface transportation is defined as primarily serving a commuting purpose and/or that connect two destination points. A facility may serve both a transportation purpose and a recreational purpose; a facility that connects people to recreational destinations may be considered to have a transportation purpose.
Check the box to indicate that the project meets this requirement. Yes

Multiuse Trails on Active Railroad Right-of-Way:

2. All multiuse trail projects that are located within right-of-way occupied by an active railroad must attach an agreement with the railroad that this right-of-way will be used for trail purposes.

Check the box to indicate that the project meets this requirement.

Safe Routes to School projects only:

3. All projects must be located within a two-mile radius of the associated primary, middle, or high school site.

Check the box to indicate that the project meets this requirement.

4. All schools benefitting from the SRTS program must conduct after-implementation surveys. These include the student travel tally form and the parent survey available on the National Center for SRTS website. The school(s) must submit the after-evaluation data to the National Center for SRTS within a year of the project completion date. Additional guidance regarding evaluation can be found at the MnDOT SRTS website.

Check the box to indicate that the applicant understands this requirement and will submit data to the National Center for SRTS within one year of project completion.

Requirements - Bicycle and Pedestrian Facilities Projects

Measure A: Project Location Relative to the RBTN

Select one:

Tier 1, Priority RBTN Corridor

Tier 1, RBTN Alignment

Tier 2, RBTN Corridor Yes

Tier 2, RBTN Alignment

Direct connection to an RBTN Tier 1 corridor or alignment

Direct connection to an RBTN Tier 2 corridor or alignment

OR

Project is not located on or directly connected to the RBTN, but is part of a local system and identified within an adopted county, city or regional parks implementing agency plan.

Measure A: Population Summary

Existing Population Within One Mile (Integer Only) 17927

Existing Employment Within One Mile (Integer Only) 5331

Upload the "Population Summary" map 1468534335203_NorthCreekGAPPop.pdf
Measure A: Project Location and Impact to Disadvantaged Populations

Select one:

Project located in Area of Concentrated Poverty with 50% or more of residents are people of color (ACP50):

Project located in Area of Concentrated Poverty:

Projects census tracts are above the regional average for population in poverty or population of color:

Project located in a census tract that is below the regional average for population in poverty or populations of color or includes children, people with disabilities, or the elderly: Yes
The Farmington North Creek Greenway segment is located in an area below the regional average for population in poverty or population of color. The area also encompasses numerous residential neighborhoods with young families and senior housing developments. Currently, there is a large geographical disconnect between the City’s northern neighborhoods and its downtown for those traveling on foot or on bicycle. A large swath of agricultural land in the middle forces those traveling between the north and south for work, school, or recreation to go the long way around, crossing multiple intersections, traveling next to traffic, and exposing them to safety hazards. For children attending Riverview Elementary or Dodge Middle School, and for older adults participating in programs at the Rambling River Senior Center and/or living in the Vermillion River Crossing, the current trails and road configuration do not present a safe pedestrian or cyclist opportunity. However, the proposed Farmington segment will mitigate these issues.

This project provides a key local and regional connection for users of all ages and abilities, especially children, people with disabilities, and older adults in Farmington. Not only does it provide a safer and more convenient north-south route, but it also eliminates a nearly two-mile gap in the local and regional trail system. The Farmington North Creek Greenway Gap does not cross any roads. The elimination of potential pedestrian/cyclist and vehicle accidents will allow residents of the city’s northern residential neighborhoods to travel safely to Downtown Farmington for employment, education, and recreation. In addition, elimination of the Farmington gap will enable those who live in and around Downtown Farmington to travel along the North Creek Greenway to reach employment and recreation destinations in Lakeville, Apple Valley, and Eagan.

Measure A: Gaps, Barriers and Continuity/Connections

Check all that apply:

**Gap improvements can be on or off the RBTN and may include the following:**

- Providing a missing link between existing or improved segments of a regional (i.e., RBTN) or local transportation network;

- Improving bikeability to better serve all ability and experience levels by:
  - Providing a safer, more protected on-street facility;

- Improving crossings at busy intersections (signals, signage, pavement markings); OR

- Improving a bike route or providing a trail parallel to a highway or arterial roadway along a lower-volume neighborhood collector or local street. Barrier crossing improvements (on or off the RBTN) can include crossings (over or under) of rivers or streams, railroad corridors, freeways, or multi-lane highways, or enhanced routes to circumvent the barrier by channeling bicyclists to existing safe crossings or grade separations. (For new barrier crossing projects, data about the nearest parallel crossing (as described above) must be included in the application to be considered for the full allotment of points under this criterion).
Closes a transportation network gap and/or provides a facility that crosses or circumvents a physical barrier  
Yes

Improves continuity and/or connections between jurisdictions (on or off the RBTN) (e.g., extending a specific bikeway facility treatment across jurisdictions to improve consistency and inherent bikeability)  
Yes

Improves Continuity and/or Connections Between Jurisdictions  
Yes

**Response (Limit 2,800 characters; approximately 400 words)**

The proposed project bridges a gap in both regional and local trail networks by constructing nearly 2 miles of trails and installing two bridges. Locally, the project will eliminate the need for residents of Farmington’s northern neighborhoods from having to travel to Akin Road located a mile to the west to travel south to cross North Creek and Middle Creek. Akin Road currently has facilities that expose travelers to countless intersection crossings as well as an annual average daily traffic of about 5,600 in 2011. Currently, Akin Road is the safest option for pedestrians and cyclists looking to cross these waterways. The only existing alternative to traveling to Akin Road would be to travel east to Highway 3 which is without pedestrian or bicycle facilities. Highway 3 had an average annual daily traffic count of about 29,500 in 2013. The current infrastructure exposes pedestrian and cyclists to multiple safety hazards and does not provide a safe and accessible bicycle and pedestrian route to cross North and Middle Creeks.

In contrast, the proposed segment eliminates all vehicular and intersection conflicts and will directly connect to Downtown Farmington, the Vermillion River, two schools, and two senior facilities. Elimination of the gap will enable residents who live in and around Downtown to travel north to Lakeville without being impeded by the barrier of the creeks. As part of the 14-mile North Creek Greenway, the Farmington Segment will create continuity between important regional destinations including the Minnesota Zoo, Downtown Apple Valley, and Lebanon Hills Regional Park. Elimination of the 1.8-mile Farmington Segment gap will bring the greenway to more than 75% completion.
Measure B: Project Improvements

Currently, travelers heading from Farmington’s northern neighborhoods into Downtown are forced to use Akin Road, crossing a dozen intersections and 15 curb cuts. This route exposes pedestrians and cyclists to numerous safety hazards. The current infrastructure also fails to provide users with a safe and accessible route to cross both North and Middle Creeks. The distance and exposure to vehicular traffic experienced by pedestrians and cyclists using alternative routes can be a deterrent to users and potentially encourage non-active living choices and lifestyles.

Completing the Farmington Segment of the North Creek Greenway will correct existing deficiencies in the regional and local trail system by eliminating a nearly two-mile gap and removing pedestrian and bicycle traffic from the roadways. This segment improves user safety and accessibility as it has no road crossings. This eliminates any and all crash potential and allows users of all ages and abilities to feel confident as they navigate the trail. Additionally, it offers a safer and more direct local route for Farmington’s pedestrians and bicyclists than existing options. The project also includes the construction of bridges over both North Creek and Middle Creek, creating a safe, accessible and scenic route for bicyclists and pedestrians to cross existing water barriers.

Measure A: Multimodal Elements
The North Creek Greenway - Farmington segment will benefit multiple modes of transportation. Eliminating the nearly 2-mile gap, including two creek crossings, within the City of Farmington will complete the safe and efficient connection from the northern neighborhoods to Downtown Farmington. The Farmington segment's location along North Creek and away from any roadways will provide an enjoyable experience for trail users and also benefit motorized transportation by reducing potential conflicts with trail users. Amenities such as benches, bumpouts, wayfinding, and interpretation will also improve the experience of using the trail. In addition to transportation, the trail will improve connections to three of the city's parks and athletic complexes.

The North Creek Greenway - Farmington segment will improve non-motorized access to the MVTA 157th Street Transit Center located along the greenway in Apple Valley, as well as the Apple Valley Transit Center on Cedar Avenue, located only a mile west of the proposed greenway. Existing trail systems with in the cities of Apple Valley and Lakeville will link users of the North Creek Greenway to the Metro Red Line (Cedar Avenue BRT).

Transit Projects Not Requiring Construction

If the applicant is completing a transit or TDM application that is operations only, check the box and do not complete the remainder of the form. These projects will receive full points for the Risk Assessment.

Check Here if Your Transit Project Does Not Require Construction

Approval Of Grant Application Submittals For Transportation Advisory Board 2016 Federal Funding Solicitation Process

WHEREAS, the Transportation Advisory Board (TAB) is requesting project submittals for federal funding under the Fixing America’s Surface Transportation (FAST) Act; and

WHEREAS, these federal programs fund up to 80 percent of project construction costs; and

WHEREAS, federal funding of projects reduces the burden local taxpayers for regional improvements; and

WHEREAS, non-federal funds must be at least 20 percent of the project costs; and

WHEREAS, project submittals are due on July 15, 2016; and

WHEREAS, all projects proposed are consistent with the adopted Dakota County Comprehensive Plan; and

WHEREAS, subject to federal funding award, the Dakota County Board of Commissioners would be asked to consider authorization to execute a grant agreement at a future meeting.

NOW, THEREFORE, BE IT RESOLVED, That the Dakota County Board of Commissioners hereby approves the following County led projects for submittal to the TAB for federal funding:

1. 179th Street Extension from ½ mile west of County State Aid Highway (CSAH) 31 to CSAH 31 and the existing 179th Street intersection with Flagstaff Avenue in Lakeville
2. CSAH 9 (Dodd Boulevard) from Heritage Way to CSAH 50 in Lakeville
3. CSAH 26 (Lone Oak Road/70th Street) from Trunk Highway (TH) 55 to TH 3 (Robert Street) in Eagan and Inver Grove Heights
4. CSAH 32 (Cliff Road) at its intersection with CSAH 31 (Pilot Knob Road) in Eagan
5. CSAH 23 (Foliage Avenue) from CSAH 86 (280th Street) to County Road 96 (320th Street) in Greenvale Township
6. CSAH 50 (202nd Street) from Holyoke Avenue to CSAH 23 (Cedar Avenue) in Lakeville
7. CSAH 86 (280th Street) from CSAH 23 (Galaxie Avenue) to TH 3 in Eureka, Greenvale, Castle Rock, and Waterford Townships
9. River to River Greenway – TH 149 Underpass in Mendota Heights
10. River to River Greenway – Robert Street Crossing Connections in West St Paul
11. North Creek Greenway – CSAH 42 Underpass east of Flagstaff in Apple Valley; and
12. CSAH 14 - Southview Boulevard from 20th Avenue to 3rd Avenue and 3rd Avenue from Southview Boulevard to Marie Avenue in South St. Paul; and

STATE OF MINNESOTA
County of Dakota

I, Jennifer Reynolds, Clerk to the Board of the County of Dakota, State of Minnesota, do hereby certify that I have compared the foregoing copy of a resolution with the original minutes of the proceedings of the Board of County Commissioners, Dakota County, Minnesota, at their session held on the 21st day of June, 2016, now on file in the County Administration Department, and have found the same to be a true and correct copy thereof.

Witness my hand and official seal of Dakota County this 23rd day of June, 2016.

Jennifer Reynolds
Clerk to the Board
BE IT FURTHER RESOLVED, That the Dakota County Board of Commissioners hereby supports the following submittals by others:

13. 117th Street from CSAH 71 (Rich Valley Boulevard) to TH 52 – Lead Agency: Inver Grove Heights
14. Orange Line Extension – Lead Agency: Metro Transit
15. CSAH 73 (Oakdale Avenue) from CSAH 14 (Mendota Road) to CSAH 8 (Wentworth Avenue) – Lead Agency: West St. Paul
16. TH 149 (Dodd Road) from Mendota Heights Road to Decorah Lane and from Maple Street to Smith Avenue – Lead Agency: Mendota Heights
18. CSAH 8 (Wentworth Avenue) from CSAH 63 (Delaware Avenue) to Humboldt Avenue – Lead Agency: West St. Paul
19. CSAH 8 (Wentworth Avenue) from TH 52 to 15th Avenue – Lead Agency: South St Paul; and

BE IT FURTHER RESOLVED, That, subject to federal funding award of the city led projects, the Dakota County Board of Commissioners will provide the local match for regional greenway projects, and for non-greenway projects will provide Dakota County’s share of the matching funds consistent with Dakota County transportation cost share policies.
