## METRO BLUE LINE EXTENSION Route Modification Report

# Comment Summary

# Corridor Wide Comments

- General support or opposition for the recommended route or overall project:
  - Improvement over the original route; serves the people, places, and communities that need transit access the most
  - Do not like the recommended route; feel that another light rail project cannot be delivered on time/in budget and transit demand / ridership is low
- Evaluation of on-street parking and impacts
- Desire for landscaping, traffic calming, and easy/safe access to destinations along the route, especially for pedestrians and bicyclists

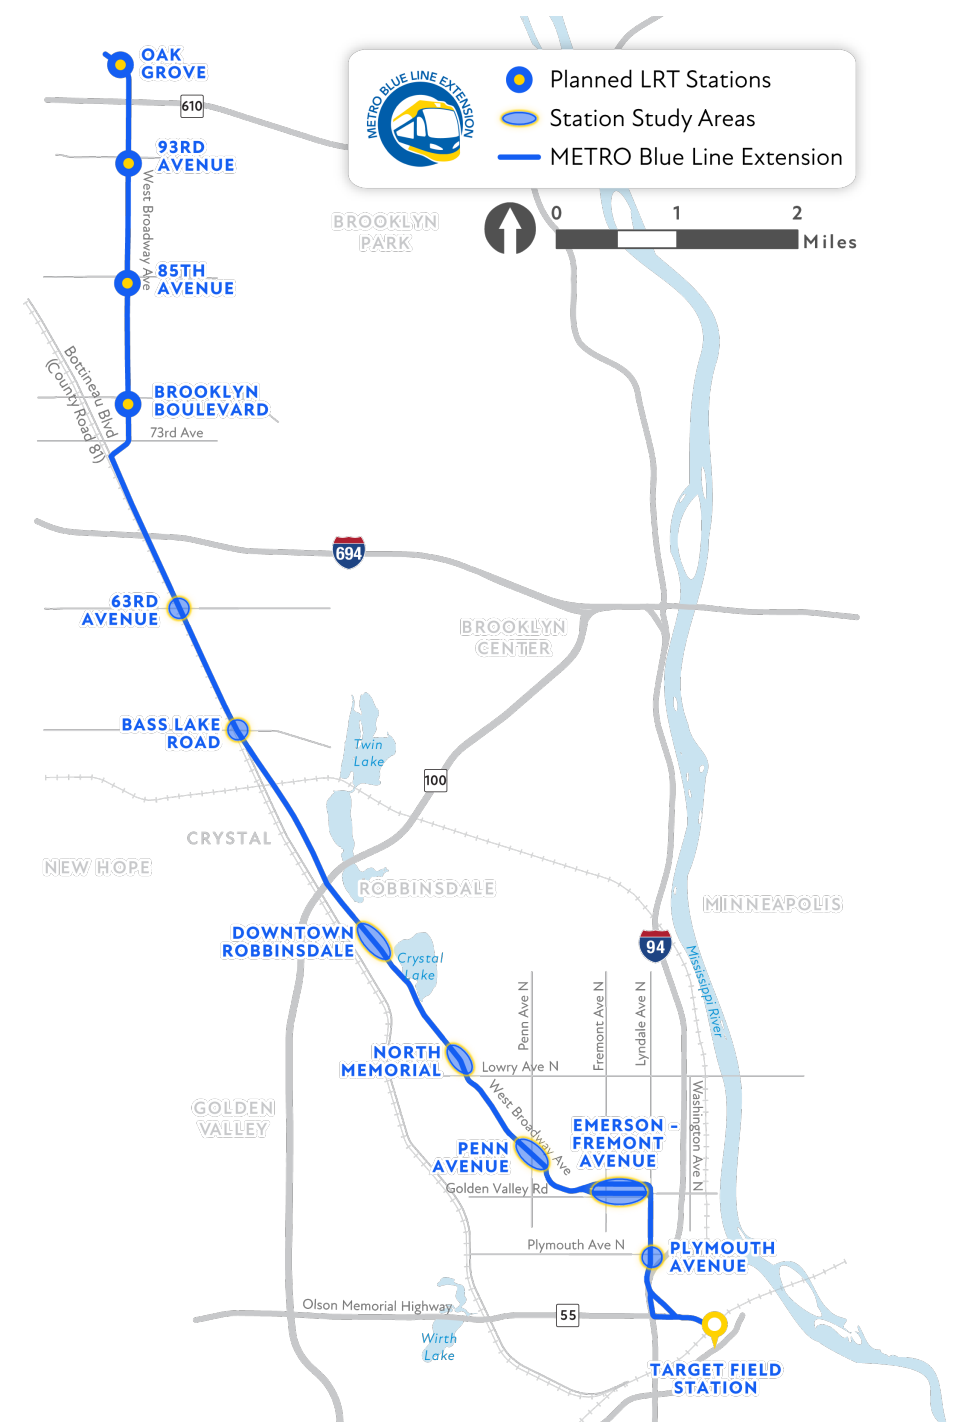

# Corridor Wide Comments (continued)

- Concern about the noise, traffic, environmental, and property impacts during and after construction
- Concern about safety and crime on/at transit
- Desire for efficient travel times so it's a competitive transportation option
- Need for additional outreach and engagement
- Desire for anti-displacement commitments to be in place before project advances

# Staff Recommended Route: West Broadway

- The West Broadway Route option including:
  - West Broadway Avenue in Brooklyn Park to County Road 81, County Road 81 in Crystal and Robbinsdale to West Broadway Avenue in North Minneapolis, connecting to Target Field Station in downtown Minneapolis.

# Route Modification Report Addendum

Based on feedback during the comment period, staff is recommending:

- Reevaluate options for the route between downtown Minneapolis and West Broadway
- Conducting anti-displacement work and environmental documentation at the same time

# Overview Schedule

We're here

- 1 YEAR: Identify community-supported route
- 1.5 - 2 YEARS: Environmental review *Document benefits and impacts of the project*
- 1.5 - 2 YEARS: Municipal consent *Seek city support of the LRT design*
- 1.5 - 2 YEARS: Begin engineering *Identify location of stations, LRT, pedestrian and bicycle access to stations*
- 1.5 - 2 YEARS: Station area planning
- 1.5 - 2 YEARS: Develop construction ready design plans and preparing the community for construction
- 1.5 - 2 YEARS: Station area planning
- 3 - 4 YEARS: Construction and full funding grant agreement *Federal funding*
- **GOAL:** Line opens in 2028

# What's next?

- The environmental review documents the impacts of alternatives studied, along with ways to avoid, minimize, and mitigate for impacts. Examples include:
  - Noise and vibration
  - Visual impacts
  - Property impacts
  - Impacts to parks, soil, and water
  - Safety and transportation (bike/pedestrian/transit/vehicles)
- Further develop design details: place station, design sidewalks and connections
- Ongoing public engagement
