The METRO Blue Line Extension project has completed approximately 60 percent of design and engineering for the 13-mile light rail line connecting Minneapolis, Golden Valley, Crystal, Robbinsdale, and Brooklyn Park. These open houses are an opportunity to learn about the design process, review design concepts, and give feedback to project staff. Other project information will also be available including updates on LRT design issues in each community.

If you require assistance to participate, please contact **Dan Pfeiffer** at least seven business days before the scheduled meeting:
