
Technical Memorandum

DATE: 03/30/ 2015

TO: The Metropolitan Council

FROM: Zach Bentzler/ CH2M Hill

SUBJECT: Southwest LRT Project Identification of Grant-Funded Parks and Natural Areas Technical Memorandum

This technical memorandum analyzes whether Land and Water Conservation Fund (LWCF) grants or state grants have been used to acquire or develop parks and natural areas that would be permanently converted to uses other than public outdoor recreational uses as a part of the SWLRT Project.

Lands purchased or developed by state and local governments using federal LWCF funds are referred to as Section 6(f) properties (16 U.S.C. 460). Any property so acquired and/or developed shall not be wholly or partly converted to other than public outdoor recreational uses without the approval of the National Park Service pursuant to 36 CFR 59.

Methodology

The study area used in this evaluation is 350 feet from the proposed LRT centerline. This study area was used for the *Draft EIS 4(f) Evaluation Update* and Supplemental Draft EIS's evaluation of Parklands, Recreation Areas, and Open Spaces; and was used for this evaluation because similar (sometimes the same) resources are being evaluated. The analysis of impacts to grant-funded parks and natural areas subject to permanent grant program requirements was completed by mapping Minnesota Department of Natural Resources¹ (Appendix A) and National Park Service² (Appendix B) lists of grant-funded parks and natural areas subject to permanent grant program requirements within the cities of Eden Prairie, Minnetonka, Hopkins, St. Louis Park, and Minneapolis; and determining if any properties are in the study area. If such a property is in with the study area then it was further evaluated to determine if any portion of the property is proposed to be permanently converted to a use other than public outdoor recreational uses.

Results

Appendix C displays an overview of the location of each grant-funded park and natural area subject to permanent grant program requirements within the above stated five cities. No Section 6(f) properties were found to be located within the study area. One state grant-funded park and/or natural area subject to permanent grant program requirements, the Minnehaha Creek Open Space, was found to be located within the study area. The Minnehaha Creek Open Space is protected by a conservation easement (Appendix D), however no part of the property will be permanently converted as part of the SWLRT

¹ The MnDNR maintains the "Grant Funded Parks and Natural Areas Subject to Permanent Grant Program Requirements" list, available at <http://www.dnr.state.mn.us/aboutdnr/lawcon/index.html> (as of 7/28/2014).

² The NPS maintains the "Land & Water Conservation Fund – Detailed Listing of Grants Grouped by County" list, available at <http://waso-lwcf.ncrc.nps.gov/public/index.cfm> (accessed March 26, 2015).

Project (See Appendix E). Because no grant-funded parks and natural areas subject to permanent grant program requirements will be permanently converted there is no additional analysis.

Appendix A – Grant-Funded Parks and
Natural Areas Subject to Permanent
Grant Program Requirements

Grant-Funded Parks and Natural Areas

Subject to Permanent Grant Program Requirements

As of 7/28/2014

(sites added annually)

Converting any of these properties to a non-recreational use requires prior approval by the State Commissioner of Natural Resources and, if noted by ■ , from the National Park Service. In most cases, the whole site is affected by grant program requirements even though only a part of the area may have been acquired or developed with grant funds. For additional information or updates, contact the MN/DNR/Division of Parks & Trails/Local Grants Unit.

CITY OF ST. LOUIS PARK

CONSERVATION EASEMENT

This is a CONSERVATION EASEMENT granted by the City of St. Louis Park, a political subdivision of the State of Minnesota (the "City") to the Minnehaha Creek Watershed District, a governmental body created under Minnesota Statutes Chapter 103D (the "District").

RECITALS:

- A. **OWNER.** The City is the current fee owner of two parcels totaling approximately 4.85 acres of real property located in the City of St. Louis Park, Hennepin County, Minnesota. That real property is more fully described below as the "Protected Property."
- B. **PROTECTED PROPERTY.** The Protected Property is that real property legally described in Exhibit A and generally depicted on the "Property Map" in Exhibit B. Both exhibits are attached to this Easement and incorporated by this reference.

The Protected Property is currently used for water quality and floodplain protection and low impact, open space recreational and nature observation. Existing improvements on the Protected Property include a dirt trail and canoe launch.

- C. **MINNEHAHA CREEK WATERSHED DISTRICT.** The Minnehaha Creek Watershed District is a governmental body created and operated exclusively for the purposes of water resource protection, conservation and management, including the protection, conservation, and management of related lands. The District is an organization qualified to hold conservation easements under Minnesota law and Section 170(h) of the Internal Revenue Code and related regulations.
- D. **CONSERVATION VALUES.** The Protected Property has the following natural, scenic and open space qualities of significant importance:
- i. approximately 1,660 feet of frontage on both sides of Minnehaha Creek that help protect the water quality of the creek from impacts of non-point source pollution and provide habitat for upland, wetland, and riparian species. Minnehaha Creek is an important natural resource and recreation area in the Twin Cities metropolitan area;
 - ii. approximately 1.17 acres of wetlands providing valuable habitat and also deemed important by the District for the protection and enhancement of water quality and flood control in Minnehaha Creek; and

- iii. approximately 3.68 acres of floodplain forest that help control flooding, provide habitat for flora and fauna and reduce, through evapotranspiration, the amount of water that would otherwise runoff to Minnehaha Creek.

Collectively, these natural, scenic and open space qualities of the Protected Property constitute its "Conservation Values."

These Conservation Values have not been and are not likely to be adversely affected to any substantial extent by the continued use of the Protected Property as described above or as authorized below or by the use and maintenance of the existing improvements on the Protected Property or construction of those structures and improvements that are authorized below.

E. **CONSERVATION POLICY.** Preservation of the Protected Property will further those governmental policies established by the following:

- i. Minnesota Statutes Chapter 84C, which recognizes the importance of private conservation efforts by authorizing conservation easements for the protection of natural, scenic, or open space values of real property, assuring its availability for agriculture, forest, recreational, or open space use, protecting natural resources, and maintaining or enhancing air or water quality.
- ii. The Metropolitan Surface Water Act, Minnesota Statutes Section 103B, which specifically identifies the importance of protecting the natural surface waters and groundwaters of the Metropolitan Area.
- iii. Minnesota Statutes Section 103D which provides for the establishment of watershed districts to conserve the natural resources of the State.
- iv. Minnehaha Creek Visioning Partnership, composed of government and private individuals collaborating to develop a vision for the future of Minnehaha Creek which resolved to improve the physical condition and aquatic ecosystem of the stream corridor through joint implementation of projects and programs to achieve the vision of the group.
- v. Minnehaha Creek Watershed District Comprehensive Water Resources Management Plan 2007-2017 which includes the following policies, programs, and projects implementing the Metropolitan Surface Water Act:
 - a. General goals and policies (Comprehensive Water Resources Management Plan, pp. 55-60), notably the following goals and their related policies:
 - i. Goal 1 – Abstraction/Filtration
 - ii. Goal 2 – Ecological Integrity
 - iii. Goal 3 – Water Quality
 - iv. Goal 5 – Water Quantity
 - v. Goal 6 – Shorelines and Streambanks

- vi. Goal 9 – Education and Communications
- vii. Goal 11 – Wetlands
- viii. Goal 12 – Groundwater
- ix. Goal 13 – Floodplains
- x. Goal 15 - Erosion
- xi. Goal 14 - Recreation
- b. Land Conservation Program (Comprehensive Water Resources Management Plan, pp. 69-76)
- c. Minnehaha Creek Subwatershed Land Conservation Activities (Minnehaha Creek Subwatershed Plan, p. 92)
- d. Minnehaha Creek Reach 19-21 Restoration (Minnehaha Creek Subwatershed Plan, p. 86)
- vi. City of St. Louis Park Comprehensive Plan.

F. **CONSERVATION INTENT.** The City and the District are committed to protecting and preserving the Conservation Values of the Protected Property in perpetuity. Accordingly, it is their intent to create and implement a conservation easement that is binding in perpetuity upon the City and all future owners of the Protected Property and that conveys to the District the right to protect and preserve the Conservation Values of the Protected Property for the benefit of this generation and generations to come.

CONVEYANCE OF CONSERVATION EASEMENT:

Pursuant to the laws of the State of Minnesota and in particular Minnesota Statutes Chapter 84C and in consideration of the facts recited above and the mutual covenants contained herein and in further consideration of the sum of one dollar and other valuable consideration, The City hereby conveys to the District a perpetual conservation easement over the Protected Property. This conservation easement consists of the following rights, terms and restrictions (the “Easement”):

- 1. **CONSERVATION PURPOSE.** The purpose of this Easement is to preserve and protect in perpetuity the Conservation Values of the Protected Property by confining the development, management and use of the Protected Property to activities that are consistent with the preservation of these Conservation Values, by prohibiting activities that significantly impair or interfere with these Conservation Values, and by providing for remedies in the event of any violation of this Easement.

The terms of this Easement are specifically intended to provide a significant public benefit, including, but not limited to:

- a. The protection of a relatively natural habitat of fish, wildlife, and plants as that term is used in section 170 (h) of Internal Revenue Code and related regulations;
- b. The protection of the water quality of and prevention of flooding along Minnehaha Creek, all pursuant to the public policies set forth above.

2. **ACTIVITY RESTRICTIONS ON PROTECTED PROPERTY:** St. Louis Park and all persons acting under authority or control of St. Louis Park; all lessees, agents, personal representatives, successors and assigns; and all other parties entitled to possess or use the Protected Property are subject to the following terms regarding use of the Protected Property, except for affirmative rights retained by District under Section 6 of this Easement for the protection and enhancement of the Conservation Values of the Protected Property.

2.1 Permitted Uses Limited. Permitted uses on the Protected Property are limited to those uses specifically and explicitly permitted in this Conservation Easement, as those uses may be elaborated and conditioned in a written Management Plan agreed to and executed by St. Louis Park and the District, which plan may be revised or supplemented from time to time ("Management Plan"). Any Management Plan will be consistent with the following principles:

- a. The Management Plan will authorize no activity that would materially impair a Conservation Value set forth in Recital D.
- b. The Management Plan will describe the details of activities permitted under this Easement and specify conditions applicable to such activities, but will not authorize any activity contrary to the terms of this Easement and shall not be read to do so.
- c. Trails reasonably necessary for permitted uses, including facilities for access by water, will be accommodated, provided they are designed to avoid material impairment to a Conservation Value set forth in Recital D.
- d. St. Louis Park or its designee will retain the responsibility and authority to manage and maintain the Protected Property on a day-to-day basis, and the Management Plan will accommodate activities and improvements reasonably required by St. Louis Park to do so, consistent with the terms of this Easement.
- e. St. Louis Park and the District will work cooperatively and in good faith to develop any Management Plan.

2.2. Industrial and Commercial Activity. No industrial or commercial use of the Protected Property, is allowed. This does not preclude the City's management of the property as part of its recreational lands and any incidental charges it applies for parkland users.

2.3. Introduction Of Non-Native Animals. No introduction of non-native animals is allowed.

- 2.4. Right of Way. No right of way shall be granted across the Protected Property in conjunction with any industrial or commercial use or residential development of other land not protected by this Easement.
- 2.5. Mining. No mining, drilling, exploring for or removing of any minerals from the Protected Property is allowed.
- 2.6. Subdivision. The Protected Property may not be further divided, subdivided, or partitioned. The Protected Property may be conveyed only in its entirety, regardless of whether it consists of or was acquired as separate parcels or is treated as separate parcels for property tax or other purposes. This provision does not, however, prohibit the division of the Protected Property when a portion of the Protected Property is being conveyed to a conservation organization described in paragraph 7.1 of this Easement.
- 2.7. Density. No portion of the Protected Property may be used to satisfy land area requirements for property other than the Protected Property for purposes of calculating building density, lot coverage or open space under otherwise applicable laws, regulations or ordinances controlling land use. No development rights which have been encumbered or extinguished by this Conservation Easement shall be transferred to any other lands pursuant to a transferable development rights scheme or cluster development arrangement or otherwise.
- 2.8. Water. No activity shall be conducted on the Protected Property that would pollute, alter, deplete, or extract surface water, natural water courses, lakes, ponds, marshes, wetland, subsurface water or any other water bodies, nor shall there be activities conducted on the Protected Property that cause erosion or that would be detrimental to water quality or purity, or that could alter natural water level and/or flow in or over the Protected Property, except as follows:
- a. Activities approved in writing by District that restore or enhance wildlife habitat or native biological communities or that improve or enhance the function and quality of existing wetlands and water bodies on and off of the property.
 - b. Activities undertaken in the exercising of rights reserved under Section 2 of this Easement that might cause erosion or impact water quality on a temporary basis, provided that efforts are undertaken to use all reasonable erosion and sediment control measures to limit the impacts of those activities. This does not allow activities that alter natural water bodies, lakes, ponds, marshes or wetlands. All activities permitted hereunder remain subject to the permitting requirements of the District and other governmental bodies.
- 2.9. Dumping. No trash, waste vegetation, non-compostable garbage, hazardous or toxic substances or unsightly material may be dumped or accumulated on the Protected Property. This does not prohibit burning or composting of excess brush or other plant material generated on the Protected Property resulting from

activities permitted by this Easement or waste receptacles necessary for permitted uses.

- 2.10. Storage Tanks. There shall be no placement of underground storage tanks on, in, or under the Protected Property.
- 2.11. Agricultural Use. No agricultural use is allowed within the Protected Property. This includes tilling, plowing, commercial cultivation of row crops, livestock or horse grazing or production, haying, feedlots, or gardening. Grazing animals may be used as a habitat management tool if pursuant to a vegetation management plan approved in writing by the District.
- 2.12. Utilities. No utility systems and/or facilities may be installed or extended within the Protected Property. This includes, without limitation, all systems and facilities necessary to provide power, fuel, water, waste disposal, communication, data and other such facilities.
- 2.13. Roads and Trails. In accordance with a management plan for the Protected Property approved by the District in writing, paths or foot trails (paved and unpaved) may be established and maintained in the Protected Property for public, non-commercial, non-motorized recreational uses in a manner that does not negatively impact the Conservation Values of the Protected Property. No other roads or other rights of way may be established or constructed within the Protected Property.
- 2.14. Fences. Within the Protected Property, fences may be constructed and maintained, improved, replaced or removed to mark boundaries, to secure the Protected Property, or as needed in carrying out activities permitted by Section 2 of this Easement. Notwithstanding, no fences may be located or constructed in a manner that interferes with the use of the Protected Property as habitat for flora and fauna.
- 2.15. Structures and Improvements. Except as specifically and expressly permitted under Section 2 of this Easement, no temporary or permanent buildings, structures, roads, rights of way, signs, or other improvements of any kind may be placed or constructed on the Protected Property.
- 2.16. Vegetation Management. Within the Protected Property, the Protected Property may be used to maintain, restore or enhance habitat for wildlife and native biological communities in accordance with a management plan approved by the District in writing. The City may remove timber and other wood products and otherwise manage the vegetation and soil within the Protected Property in accordance with said management plan approved by the District in writing, except that such approval shall not be required in the case of emergency fire breaks. Beyond the foregoing, there shall be no removal, cutting, pruning, trimming or

mowing of any trees or other vegetation, living or dead, and no introduction of non-native species is allowed within the Protected Property, except as follows:

- i. In conjunction with a Management Plan as specifically provided for above;
- ii. As reasonably required, subject to District prior and written approval per Section 7.6 of this Easement, to prevent or control insects, noxious weeds, invasive vegetation, or disease. However, prior approval shall not be required in the event of emergency situations; or
- iii. As reasonably required to prevent fire, personal injury, or property damage.

2.17. Topography and Surface Alteration. No alteration or change in the vegetation, topography or surface is allowed within the Protected Property except for purposes specifically permitted under Section 2 of this easement. This includes no ditching, draining, diking or filling and no excavation, dredging, mining or drilling, or removal of soil, sand, gravel, rock, minerals, or other materials, except to the degree absolutely necessary in order to effect a use permitted under Section 2 of this Easement. Properly designed and installed measures to minimize erosion and sedimentation will be in place at all times that the land surface is disturbed and until the land is permanently stabilized.

2.18. Motorized Vehicles. Within portions of the Protected Property not designated as wetland on Exhibit B, but only on existing trails as identified on Exhibit B, the City retains the right to operate motorized and non-motorized off-road vehicles, such as mountain bicycles, all-terrain vehicles (also known as ATVs or ORVs), and snowmobiles, provided that said usage does not create erosion and/or damage the Conservation Values of this Easement. "Existing trails" as shown on Exhibit B includes all future trails created with written approval of the District, according to the terms of this easement.

City agrees that the District may obtain a judicial order restricting, partially restricting, or prohibiting vehicle use within the Protected Property if any of the restrictions presented in the above sub-paragraph are violated. Vehicle usage must comply with all relevant federal, state, and local laws.

Beyond the immediately foregoing, within the Protected Property, there shall be no operation of mountain or other bicycles, snowmobiles, dune buggies, motorcycles, all-terrain vehicles, jet skis, motorized boats, hang gliders, aircraft, or any other type of motorized vehicle.

Notwithstanding any other language in this paragraph 2.18, the City may operate motorized and non-motorized vehicles on any part of the Protected Property as reasonably necessary to perform vegetation management permitted under this easement. In so doing, the City will prevent and minimize impact to the Conservation Values, as feasible.

- 2.19. Chemicals. Except as authorized in a management plan per subsection 2.1 above, within the Protected Property there shall be no use of pesticides or biocides, including but not limited to insecticides, fungicides, rodenticides, and herbicides, and no use of devices commonly known as "bug-zappers". Said prohibition shall not apply in the case of ecological restoration pursuant to a vegetation management plan per subsection 2.16 above.
- 2.20. Recreational and Educational Uses. The Protected Property may be used for hiking, cross-country skiing, nature observation or study, and other similar low impact, non-motorized, recreational and educational programs or activities.
- 2.21. Notice. The City will give the District notice as set out in Section 7.6 of this Easement before beginning any construction activities permitted under this Section 2.
3. **RESERVED RIGHTS**. The City retains all rights associated with ownership and use of the Protected Property that are not expressly restricted or prohibited by this Easement. The City may not, however, exercise these rights in a manner that would adversely impact the Conservation Values of the Protected Property. Additionally, The City must give notice to the District before exercising any reserved right that might have an adverse impact on the Conservation Values associated with the Protected Property.
- 3.1. Right to Convey. The City may sell, give, lease, bequeath, devise, mortgage or otherwise encumber or convey the Protected Property, provided written notice is provided to the District in accordance with Sections 4.5 and 7.6 of this Easement.
- a. Any conveyance or encumbrance of the Protected Property is subject to this Easement.
- b. The City will reference or insert the terms of this Easement in any deed or other document by which The City conveys title to all or a portion of the Protected Property. The City will also specify to what extent reserved rights have been exercised, if at all, and are no longer available for use by the new owner and which reserved rights are specifically allocated to the property being conveyed in accordance with other provisions of this Easement.
- The City will notify the District of any conveyance within fifteen (15) days after closing and will provide the District with the name and address of the new owner and a copy of the deed transferring title.
- The enforceability or validity of this Easement will not be impaired or limited by any failure of The City to comply with this subparagraph.
4. **DISTRICT'S RIGHTS AND REMEDIES**. In order to accomplish the purposes of this Easement, the District has the following rights and remedies. The District may not,

however, exercise these rights in a manner that would adversely impact the Conservation Values of the Protected Property.

- 4.1. Preserve and Protect Conservation Values. The right to preserve and protect the conservation values of the Protected Property through the rights and remedies set forth below.
- 4.2. Right to Enter. The District, its agents, and authorized representatives, have the right to enter the Protected Property at reasonable times and in a reasonable manner for the purpose of, and may engage in, the following activities:
 - a. To inspect the Protected Property, to monitor compliance with the terms of this Easement, and to enforce the terms of this Easement.
 - b. To obtain evidence for use in seeking judicial or other enforcement of this Easement.
 - c. To survey or otherwise mark the boundaries of all or part of the Protected Property. Any survey or boundary demarcation completed under this provision will be at the District's expense.
 - d. To make scientific and educational observations and studies and take samples, within the Protected Property, in such a manner as will not disturb the quiet enjoyment of the Protected Property by the City.
 - e. The right, but not the obligation, to manage the Protected Property subject to applicable laws and regulations and to undertake on the Protected Property all actions reasonably necessary or convenient for management purposes. Said management may consist of, but not be limited to: vegetative maintenance and management; hydrologic or soils modifications; land alteration and installing appropriate facilities for the foregoing such as level spreaders, weirs, berms, equalizer pipes, sedimentation ponds, and other such facilities. The District shall provide The City with advance notice of any use of heavy equipment for such management.

In addition to any rights of entry it has under statute, the District and its authorized agents shall have, in perpetuity, the right at reasonable times to cross and recross, on foot or by vehicle and to transport equipment across the Protected Property to exercise any right or responsibility under this Easement. The District will pay for or repair any actual damage to the Protected Property caused by its exercise of rights under this Section 4; notwithstanding, "actual damage" does not include any temporary or permanent alteration within the Protected Property authorized by this Easement.

- 4.3. Right of Enforcement. The District may prevent or remedy a violation of this Easement through judicial action brought against the City or other responsible party in any court of competent jurisdiction.
- a. Notice. Before initiating judicial action against the City, the District will advise the City in writing of the apparent violation or threatened violation and allow a reasonable opportunity for the District and City to confer and resolve the matter, unless the District determines that immediate judicial action is needed to prevent or mitigate damage to the Protected Property.
 - b. Remedies. Remedies available to the District include but are not limited to temporary and permanent injunctive relief, restoration of the Protected Property to its condition at the time of this conveyance or as otherwise necessitated by a violation of the Easement, specific performance, declaratory relief and recovery of damages. These remedies are cumulative and are available without requiring the District to prove actual impact to the Conservation Values protected by this Easement. The District and the City also recognize that restoration may be the only adequate remedy for certain violations of this Easement. The District may seek expedited relief, ex parte if necessary, and need not post a bond applicable to a petition for such relief.
 - c. Discretionary Enforcement. Enforcement of the terms of this Easement is solely at the District's discretion. The District does not, by any delay or prior failure of the District to discover a violation or initiate enforcement proceedings, waive or forfeit any enforcement right.
 - d. Acts Beyond Owner's Control. The District may not have a remedy against the City for any change to the Protected Property (i) not caused in whole or part by an action of the City or a party acting under the City's authority, or (ii) to the extent caused by an action of the City, or of a party acting under the City's authority, taken reasonably and in good faith under emergency conditions to prevent or mitigate damage from such conditions.
 - e. Right to Report. In addition to other remedies, the District may report any environmental concern or condition, or any actual or potential violation of an environmental law, to appropriate regulatory agencies.
- 4.4. Signs. The District has the right to place on the Protected Property signs that identify the land as protected by this Easement and/or advise of limitations on use in accordance with applicable law. The number and location of any signs are subject to the City's approval, not to be unreasonably withheld.
- 4.5. Grant of First Right of Refusal. From and after the date of this conveyance, the City grants and conveys to the District a right of first refusal to acquire fee title in the Protected Property or in any portion thereof (the "First Right") under the same terms and conditions set forth in any offer to purchase the Premises received from

a third party (the "Offer"). The First Right will run with title to the Protected Property in perpetuity.

- a. Notice of Offer. If, at any time, the City receives an Offer that it is willing to accept, the City will deliver written notice thereof to the District within two (2) business days after receipt and determination of its acceptability (the "Offer Notice"). An Offer must be in writing, and executed by and binding on the party making the Offer. The Offer Notice will state that the City desires to, and is ready, willing and able to, accept the Offer and enclose a true, complete and fully legible copy of the Offer.
 - b. Exercise of First Right. Within sixty (60) days after receipt of the Offer Notice, the District will deliver written notice to the City of its election to exercise the First Right as to the Offer identified in the Offer Notice (the "Acceptance Notice"). In the event the District timely exercises the First Right, the City and the District promptly will execute and deliver an agreement on the same substantive terms and conditions as contained in the Offer. If the District does not timely exercise the First Right, then the City may sell the Protected Property pursuant to the Offer, without material modification or amendment, and the First Right will be deemed terminated and of no further effect. However, anything in this Agreement to the contrary notwithstanding, if there is a material modification or amendment to the Offer, or if the sale of the Protected Property is not consummated pursuant to the Offer, the First Right will be deemed to be a continuing right. In that case, a new Offer Notice must be delivered to the District with regard to any material modification or amendment of the Offer identified in the Offer Notice, or any subsequent Offer, and the District will have the same rights with regard to the new Offer Notice as it had with regard to the initial Offer Notice. Further, the First Right will survive with respect to any part of the Protected Property that is not the subject of an Offer.
5. **PUBLIC ACCESS.** The Protected Property shall be open to the general public on a non-discriminatory basis for public uses consistent with this Conservation Easement. The City shall remain responsible for the management and maintenance of the Protected Property and public use thereof, and in its discretion may prescribe terms for the times, locations and conditions of public use, provided they are consistent with this Conservation Easement.
6. **DOCUMENTATION.** The current uses of the Protected Property, the state of any existing improvements, and the specific Conservation Values of the Protected Property that are briefly described in this Easement are more fully described in a property report, TITLED *Easement Documentation Report – Minnehaha Creek – DNR Creek Lands* and DATED _____, on file at the office of the District. The City and the District acknowledge that this property report accurately represents the condition of the Protected Property at the time of this conveyance and may be used by the District in monitoring future uses of the Protected Property, in documenting compliance with the

terms of this Easement and in any enforcement proceeding. This property report, however, is not intended to preclude the use of other information and evidence to establish the present condition of the Protected Property in the event of a future controversy.

7. **GENERAL PROVISIONS.**

- 7.1. Assignment. This Easement, and any rights or responsibilities hereunder, may be assigned or transferred by the District to, or shared by the District with, a conservation organization that is a qualified organization under Section 170(h) of the Internal Revenue Code and related regulations and that is authorized to hold conservation easements under Minnesota law. Any future holder of this Easement shall have all of the rights conveyed to the District by this Easement. As a condition of any assignment or transfer, the District shall require any future holder of this Easement to continue to carry out the conservation purposes of this Easement in perpetuity.

The District will notify The City of any assignment within fifteen (15) days of the assignment and will provide The City with the name and address of the new holder.

- 7.2. Amendment. Under appropriate circumstances, this Easement may be modified or amended. However, no amendment or modification will be allowed if, in the sole and exclusive judgment of the District, it: (i) does not further the purposes of this Easement, (ii) will adversely impact the Conservation Values protected by this Easement, (iii) affects the perpetual duration of the Easement, or (iv) affects the validity of the Easement under Minnesota law or under Section 170(h) of the Internal Revenue Code.

Any amendment or modification must be in writing and recorded in the same manner as this Easement.

- 7.3. Extinguishment. This Easement may be extinguished only through judicial proceedings and only under the following circumstances:
- a. This Easement may be extinguished only (i) if unexpected change in the conditions of or surrounding the Protected Property makes the continued use of the Protected Property for the conservation purposes set out above impossible or impractical or (ii) pursuant to the proper exercise of the power of eminent domain.
 - b. The City recognizes that uses of the Protected Property prohibited by this Easement may, in the future, become more economically viable than those uses permitted by the Easement. The City also recognizes that neighboring properties may, in the future, be put entirely to uses not permitted on the Protected Property by this Easement.

The City and the District believe that such changes will increase the public benefit provided by this Easement. Therefore, such changes are not considered unexpected changes and shall not be deemed to be circumstances justifying the extinguishment of this Easement as otherwise set forth above.

- 7.4. Real Estate Taxes. The City shall pay all real estate taxes and assessments levied against the Protected Property, including any levied against the interest of the District created by this Easement. The District may, at its discretion, pay any outstanding taxes or assessments and shall then be entitled to reimbursement from the City.
- 7.5. Ownership Costs and Liabilities. The City retains all responsibilities and shall bear all costs and liabilities of any kind related to the ownership, operation, upkeep and maintenance of the Protected Property, including the maintenance of such comprehensive general liability insurance coverage as the City deems adequate. The preceding sentence shall not apply to any improvements constructed by the District under Section 4.2. City agrees to release, hold harmless, defend and indemnify District from any and all liabilities including, but not limited to, injury, losses, damages, judgments, costs, expenses and fees which District may suffer or incur as a result of or arising out of the activities of City on the Protected Property. District agrees to release, hold harmless, defend and indemnify City from any and all liabilities including, but not limited to, injury, losses, damages, judgments, costs, expenses and fees which City may suffer or incur as a result of or arising out of the activities of District on the Protected Property. The City shall keep the District's interest in the Protected Property free of any liens arising out of any work performed for, materials furnished to or obligations incurred by Owner. Nothing in this paragraph or this Easement creates any right in any third party or diminishes any immunity, defense or liability limitation of the City or District as against any third party.
- 7.6. Notice and Approval. Any notice or request for approval required by this Easement must be written and is subject to the following:
- a. Delivery. Any required notice or request for approval must be delivered personally or sent by first class mail or other nationally recognized delivery service to the appropriate party at the following addresses (or other address specified in writing):

To the City:

City of St. Louis Park
3700 Monterey Drive
St. Louis Park, MN 55416

To the District:

Minnehaha Creek Watershed District
18202 Minnetonka Boulevard
Deephaven, MN 55391

- b. Timing. Unless otherwise specified in this Easement, any required notice or request for approval must be delivered at least 30 days prior to the date proposed for initiating the activity in question.
 - c. Content. The notice or request for approval must include sufficient information to allow the District to make an informed decision on whether any proposed activity is consistent with the terms and purposes of this Easement. At a minimum this would include (i) the location, nature and scope of the proposed activity, (ii) the proposed use, design and location of any building, structure or improvement and (iii) the potential impact on the Conservation Values of the Protected Property.
 - d. Approval. District's consent for activities otherwise prohibited under Sections 2 and/or 3 above, or for any activities requiring District's consent under this Easement, may be given under the following conditions and circumstances. If, owing to unforeseen or changed circumstances, any of the activities listed in Sections 2 and/or 3 above are deemed desirable by City and District, District may give permission for such activities, subject to the limitations herein. District may give its permission only if it reasonably determines that such activities (1) do not violate the purpose of this Conservation Easement and (2) either enhance or do not impair any significant conservation interests associated with the Protected Property. The District may condition its approval on the Owner's acceptance of modifications, which would, in the District's reasonable judgment, make the proposed activity consistent with the Easement or otherwise meet any concerns. Notwithstanding the foregoing, this paragraph may not be used to permit any residential, commercial or industrial structure, or any commercial or industrial activity, not provided for above.
- 7.7. Binding Effect. This Easement shall run with and burden the Protected Property in perpetuity. The terms of this Easement are binding and enforceable against the City, its lessees, agents, personal representatives, successors and assigns, and all other parties entitled to possess or use the Protected Property.

This Easement creates a property right immediately vested in the District and its successors and assigns that cannot be terminated or extinguished except as set out herein.

- 7.8. Merger. The City and District agree that the terms of this Conservation Easement shall survive any merger of the fee and easement interest in the Protected Property.
- 7.9. Definitions. Unless the context requires otherwise, the term "City" includes, jointly and severally, the City of St. Louis Park and their representatives, successors and assigns in title to the Protected Property. The term "District"

includes the Minnehaha Creek Watershed District and its successors, assigns and partners to any interest it holds in this Easement.

- 7.10. Termination of Rights and Obligations. A party's rights and obligations under this Easement terminate upon the transfer or termination of that party's interest in this Easement or the Protected Property, provided, however, that any liability for acts or omissions occurring prior to the transfer or termination will survive that transfer or termination.
- 7.11. Recording. The District will record this Easement in a timely manner in the official records for Hennepin County. The District may re-record this Easement or any other documents necessary to protect its rights under this Easement or to assure the perpetual enforceability of this Easement. City will cooperate as necessary to accomplish and effectuate acts of recordation under this Section.
- 7.12. Controlling Law and Construction. This Easement shall be governed by the laws of the State of Minnesota and construed to resolve any ambiguities or questions of validity of specific provisions in favor of giving maximum effect to its conservation purposes and to the policies and purposes of Minnesota Statutes Chapter 84C.
- 7.13. Permits and Applicable Laws. City and District acknowledge that the exercise by The City of any reserved right enumerated herein or uses of the Protected Property even if consistent with the conservation purposes of this Easement shall not relieve City from complying with or obtaining any permit from any applicable governmental authority, including the District, prior to the exercise thereof.
- 7.14. Severability. A determination that any provision or specific application of this Easement is invalid shall not affect the validity of the remaining provisions or any future application.
- 7.15. Captions. The captions herein have been inserted solely for convenience of reference and are not a part of this Conservation Easement and shall have no effect upon construction or interpretation.
- 7.16. Additional Documents. The City agrees to execute or provide any additional documents reasonably needed by the District to carry out in perpetuity the provisions and the intent of this Easement, including, but not limited to any documents needed to correct any legal description or title matter or to comply with any federal, state, or local law, rule or regulation.
- 7.17. Entire Agreement. This document sets forth the entire agreement of the parties with respect this Easement and supersedes all prior discussions or understandings.

ACCEPTANCE

The Minnehaha Creek Watershed District hereby accepts the foregoing Conservation Easement this 23 day of February, 2010.

MINNEHAHA CREEK WATERSHED DISTRICT

By: [Signature]

Title: Administrator

STATE OF MINNESOTA)
) ss
COUNTY OF Hennepin)

The foregoing instrument was acknowledged before me this 23rd day of February, 2010, by L. ERIC EVENSON, the DISTRICT ADMINISTRATOR of the Minnehaha Creek Watershed District, a governmental body created under Minnesota Statutes Chapter 103D, on behalf of said governmental body.
