Connecting the Region

JULY 2019

FORTUNE 500 COMPANIES
• 11 Fortune 500 companies are on an existing or planned regional transitways

CONSTRUCTION JOBS
• Project will create 7,500 construction jobs and $350 million in payroll to be reinvested in communities throughout the Twin Cities and State of Minnesota

REGIONAL GROWTH
• 64,000 new jobs are expected to be added within ½ mile of the planned new stations and 5 existing stations in downtown Minneapolis
• Southwest LRT is an integrated transit option that allows businesses to attract a talented workforce and meet employment demands
LRT Construction Phases

Utilities
- Excavation
- Relocation
- Installation

Site Prep
- Clear buildings
- Remove bridges
- Remove pavement
- Establish work zones
- Place fencing
- Implementing pedestrian, bike and roadway detours
- Shift freight rail

Structures and Tracks
- LRT track beds
- Stations
- Bridges
- Retaining walls
- Tunnels

Systems and Landscaping
- Overhead catenary
- Safety & security
- Ticket vending
- Planting trees, bushes, and grasses

Testing
- Safety
- Communications
- Operator training

Major Construction Elements

BRIDGES
• 29 new bridges, including: LRT, pedestrian, roadway, freight
• Modifications of 7 existing bridges

HIGHLIGHTS
• Prairie Center Drive
• Excelsior Boulevard
• Glenwood Avenue

TUNNELS
• Six pedestrian tunnels
• Two cut and cover tunnels

HIGHLIGHTS
• TH 62: 582 feet
• Kenilworth: 2,236 feet

RETAINING WALLS & TRACKS
• Over 100 retaining walls
• 182,000+ feet of track
• 15 at-grade LRT crossings

HIGHLIGHTS
• 7.8 miles shared LRT and freight corridor
• Five shared crossing with freight rail

Call the hotline for blocked access to business or residential areas, improper traffic sign placement, parking or other issues.

For emergencies, always call 911.
Regional Trail Detours

JULY 2019

• The Minnesota River Bluffs Regional Trail in Hopkins, between 5th Avenue South and 8th Avenue South, is closed until Fall 2021.
• The Cedar Lake Trail through Hopkins and St. Louis Park, from east of the North Cedar Lake Trail to France, is closed until Fall 2021.
• The Kenilworth Trail in Minneapolis, from the Midtown Greenway to south of West 21st Street, is closed until Summer 2022.
• The Cedar Lake Trail in Minneapolis, from Linden Yards located west of Van White Boulevard to east of Royalston Avenue, is closed until Summer 2021.

For ongoing detour information visit: swlrt.org
Current and Upcoming Road Detours

Louisiana Avenue in St. Louis Park: July 22
A full road closure of Louisiana Avenue at the Cedar Lake Regional Trail begins July 22 as crews begin to demo the existing bridge. This closure will last up to five days. Traffic moving south will detour west onto Highway 7, south onto TH 169 and back east on Excelsior Boulevard. Traffic moving north with detour west onto Excelsior Boulevard, north onto TH 169 and back east on Highway 7.

Glenwood Avenue in Minneapolis: July 15
Full road closure between Lyndale Avenue North and 11th Street North occurred July 15 for approximately two years; local access to businesses will be maintained. Generally, vehicle detours will use Lyndale Avenue, Olson Memorial Highway and 7th/10th Streets. Pedestrian detour will utilize Border Avenue, Holden Street and Royalston Avenue sidewalks.

SUMMER/FALL 2019 DETOURS

1. Smetana Road (full closure): Late July
2. Excelsior Boulevard (full closure): Late Summer
3. Blake Road (full closure): Late Summer
4. Second closure of Louisiana Avenue (full closure): August
5. Wooddale Avenue (full closure): Fall
6. Beltline Boulevard (partial closure): Late Summer
7. Burnham Road (partial & full closures): Mid-July

Road closures will be staggered to avoid overlapping closures in a similar area, in order to maintain access.
Project partners (city/county/agencies) attend:

- **Pre-Activity meetings**
  These meetings occur before a major activity in a new area begins. This coordination helps ensure construction staff and agency partners are aware of plans and coordinate on other non-project work that may also be taking place.

- **Weekly Progress meetings**
  Staff review activities coming up in the next three weeks and receive updates on areas like safety and outreach.

- **Weekly Management of Traffic meetings**
  Staff review and confirm planned detour routing and durations.

- **Weekly Utility Coordination meetings**
  These meetings allow public and private utility companies to coordinate their work. Project staff receive updates on the progress of utility work so other construction activities can be scheduled.

**Site Orientation and Safety Training:**

- **Safety Training**
  All staff is required to take a variety of safety training so that good practices are followed on site. Both Metro Transit and LMJV have staff dedicated to safety.

- **LMJV Orientation**
  Before a new person can appear on site, they need to attend orientation where they learn the rules and requirements of this project.

- **Railroad Coordination**
  Staff are required to take training specific to working near a railroad. In shared portions of the corridor, a trained professional, often called a flagger, supervises the movement of freight trains through the construction zone. As construction workers arrive on site, they receive daily job briefings and sign-in with the flagger so that all activities are coordinated throughout the day.
