

**Your irrigation system controller
may be robbing you.**

LOOK INSIDE AT TWO LAWNS.
Can you tell the difference?

LAWN A

Clock-based
controller

130,000
gallons per year

\$300
annual cost

LAWN B

WaterSense-certified
Smart Controller

80,000
gallons per year

\$185
annual cost

390 Robert Street North
St. Paul, MN 55101-1805

Phone 651.602.1000
Fax 651.602.1550
TTY 651.291.0904

You can save money by replacing your clock-based irrigation controller with a WiFi-connected, WaterSense-certified Smart Controller.

AND STILL ENJOY A PERFECT LAWN.

By using water sensibly, you will help your community avoid spending millions of dollars for new water wells, pipes and pumping costs. Let's all pitch in to preserve our region's water resources for future generations.
