

Program 8096 – Northwest Area Interceptor Improvements

Map showing Rogers WWTP, the future Crow River WWTP, and future meters in the Rogers area

Description

The interceptor systems in Plymouth, Maple Grove, Brooklyn Center, New Hope, Golden Valley, St. Louis Park, Medina, and other northwest area communities need rehabilitation and/or replacement as well as expansion to serve growth. This program will rehabilitate existing interceptor facilities, including gravity sewers, forcemains, lift stations, and meter stations, and analyze system needs to accommodate growth.

Purpose and justification

The program provides for improvements to the interceptor system serving the northwest area. This includes work needed to expand the Rogers WWTP service area and to improve system capacity and reliability.

Program location

The active projects within this program are in the following Council districts: 1, 2, and 8

Active projects in program

Project Number	Project Title
809600	Northwest Area Improvements (Parent Project)
