Luce Line Trail closure in Theodore Wirth Park
beginning Monday, October 22

Beginning Monday, October 22, Luce Line Trail through Theodore Wirth Park will be closing as part of the Metropolitan Council Environmental Services (MCES) Theodore Wirth Park Sewer Improvement Project. During the closure, crews will be removing temporary wastewater conveyance pipes and pumps and working on park and trail restoration. The closure is expected to last two to three weeks.

The trail closure will occur north of Plymouth Avenue at the trail split, west at Theodore Wirth Parkway, and south of Highway 55 at the Bassetts Creek pedestrian bridge (see map below). During the closure, trail users will be detoured to Grand Rounds Trail along Theodore Wirth Parkway. The detour route will extend from the Bassetts Creek crossing just north of the Theodore Wirth Parkway and Plymouth Avenue intersection and continue to Glenwood Avenue (see map below). Detour signage will be posted along the trail.

We continue to appreciate trail and park users’ patience and cooperation as crews work to improve the regional sewer system.
