

Temporary Trail Closures Ahead

Temporary trail closures are necessary to protect public safety during underground sewer construction.

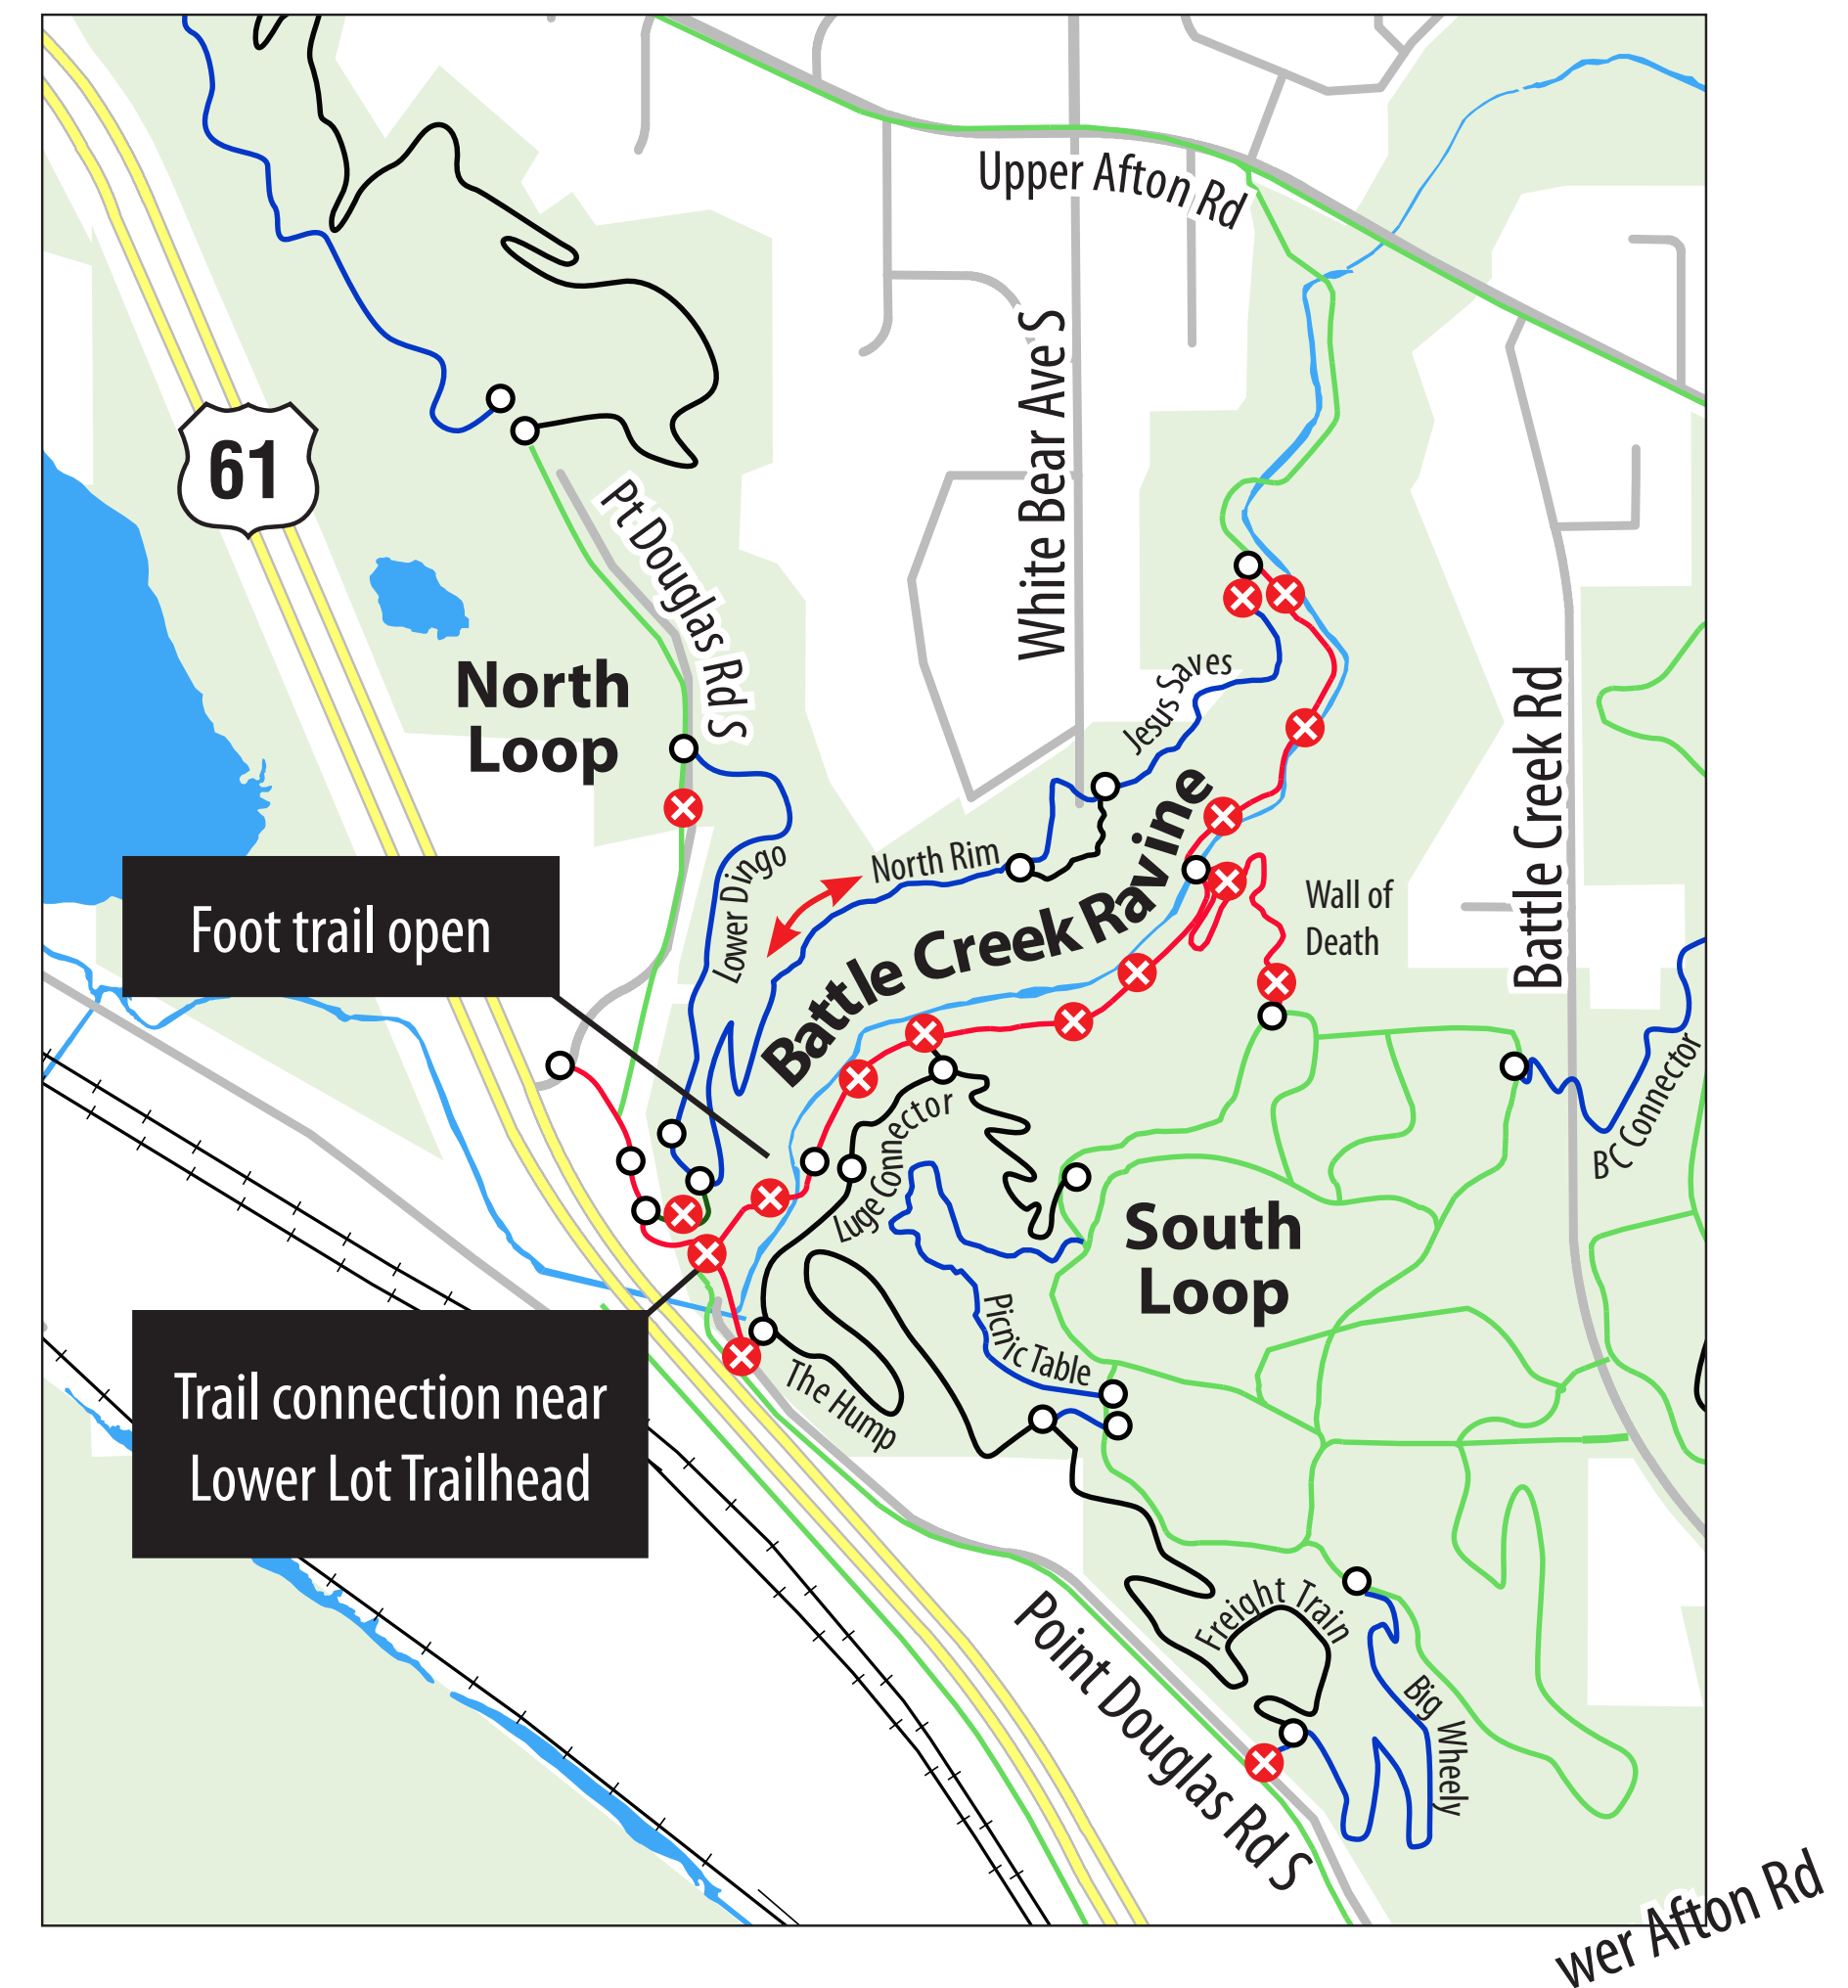

Trails north and south of the ravine will often not connect during construction. The connection near the Lower Lot will be closed when there is active construction in that area and the lot will remain closed. Work is anticipated in the area through late-July. Schedules are subject to change.

For the most up-to-date trail status report, please visit the Battle Creek Mountain Biking Facebook page (<https://www.facebook.com/battlecreekmountainbike/>)
