American Boulevard closure rescheduled for April 19

After a delay due to weather, the closure of American Boulevard will begin on Mon, April 19. During the work, drivers will not be able to make any turns to/from the closed intersection and will be detoured to use 82nd Street to Stanley Road to 84th Street to get around the closure.

American Boulevard will also be reduced to a single lane in each direction (see map below). Underground utility work and the full closure of the American Boulevard intersection is expected to continue through June 2021.
