Permanent driveway restoration continues
This week, crews continue to install permanent concrete driveway and aprons on the remainder of residents’ homes. Crews will use yard signs to notify residents on specific dates and times of this work. Once the concrete is poured, residents will need to wait seven days for the concrete to cure to access their driveways. In some cases, there may be a gap of time between driveway preparation and paving resulting in driveway closures of up to 7-10 days. Crews will work to minimize the duration of driveway closures.

Please park on nearby paved streets while this work takes place if you need to access your vehicle. Crews will ensure residents can access their homes during this time and will work with residents who need special accommodations.

Upcoming work
Crews will be removing the temporary wastewater conveyance pipe underneath 81st Avenue and 85th Avenue near Highway 252 and restoring the roadway in early May. Work will occur overnight and road closures with detours will be in place (see maps below). Community members can expect impacts such as noise, lighting, and dust during this overnight pipe removal and restoration work.

85th Avenue will be closed May 4 from 9 pm to 6 am May 5 for pipe removal
81st Avenue will be closed May 5 from 9 pm to 6 am May 6 for pipe removal
85th Avenue will be closed May 6 from 9 pm to 6 am May 7 for pavement restoration
81st Avenue will be closed May 7 from 9 pm to 6 am May 8 for pavement restoration

81st Avenue detour
**Tree restoration**

Tree restoration has been scheduled to begin this week and will continue into May. This work is weather dependent.

**Stay informed**
