Road Disruption Update
Crews continue to mobilize and will be using Humboldt Avenue between 83rd and 84th Avenue while constructing the temporary wastewater conveyance pipes. See the map below. The road will remain open, but please use caution and keep your distance when traveling by crew members and equipment.

Preconstruction Survey Update
Due to the COVID-19 pandemic, preconstruction surveys are canceled for the foreseeable future.

What To Expect Through Late March
- Crews will continue digging in the right-of-way (potholing) along the project sites to check utility locations in the area.
- Removal of marked trees will continue along both project sites.
- Construction of the temporary wastewater conveyance pipe will begin.
- Construction equipment will arrive at Jewell Park and various locations along the project sites. The Jewell Park playground, park building, and parking lot will remain open during construction.

Looking Ahead
In April, temporary, one-day driveway closures and traffic impacts will take place when temporary wastewater conveyance pipes are installed and removed from under driveways on 89th Avenue, Brookdale Drive and under the road at 81st Avenue and 85th Avenue near Highway 252.

Neighborhood Open House: Thank you for attending!
About 30 neighbors attended the project open house held on March 12 at the Jewell Park building. We appreciated the opportunity to meet you, to answer your questions, and to explain more details about the project. We will not be hosting additional in-person open house meetings in the near future due to the COVID-19 pandemic, but encourage you to email us or call us using the information below.
