Brooklyn Park Regional Sewer Rehabilitation

Construction Update: May 12, 2021

Issue 60

Tree restoration
Tree restoration is scheduled to occur this week. Crews have marked where the trees are to be planted and the type of tree to be planted with a wooden stake (see image). Please contact us today if you would like to change the location of your new tree(s).

Grass, bush and other landscaping restoration
Crews plan to begin the process of laying sod and grass seed next week. Sod will be used on residential properties and the adjacent right-of-way. Grass seed will be placed on public land. Crews are responsible for watering the new grass for one month after the grass is planted to make sure it takes root.

Restoration of bushes, plants, and other landscaping is expected to begin later this month.

Jewell Park restoration
Restoration at Jewell Park has begun and is expected to be complete by mid-June.

Road restoration
Road restoration will continue on Brookdale Drive and 85th Avenue this week. This will not involve road closures, but will involve traffic control personnel. Please drive with caution. We want you and our crews to stay safe during restoration.
