Permanent driveway restoration continues
Crews continue to restore residents’ driveways and aprons and will use yard signs to notify residents on specific dates and times of this work. Once the concrete is poured, residents will need to wait seven days for the concrete to cure to access their driveways. **In some cases, there may be a gap of time between driveway preparation and paving resulting in driveway closures of up to 7-10 days.**

Crews will work to minimize the duration of driveway closures.

Please park on nearby paved streets while this work takes place if you need to access your vehicle. Crews will ensure residents can access their homes during this time and will work with residents who need special accommodations.

Tree restoration
Tree restoration is scheduled to begin next week and continue during May. This work is weather dependent.

Jewell Park restoration
Restoration at Jewell Park is expected to begin next week. A picture of Jewell Park during construction is shown here.

Bush and landscaping restoration
Restoration of bushes, plants, and other landscaping is expected to begin later this month.

81st & 85th Avenue closures complete
Crews have finished removing the temporary wastewater conveyance pipe from underneath 81st Avenue and 85th Avenue near Highway 252 and restored the roadway. Thank you to area residents for your understanding during this important work.
