Work to rehabilitate the sanitary sewer under Xylon Avenue will begin this week. Crews will access the sanitary sewer through existing manholes. This work is anticipated to last through the end of June.

**WHAT TO EXPECT**

**Traffic Impacts**  
Starting this week, Xylon Avenue will be closed to through traffic. Local traffic will be allowed. The street will be completely blocked between 115th and 116th Avenues N. Please see the detour route below. Driveway access will be maintained for all residences except 11534, 11541, 11542, and 11549 Xylon Avenue.
**Construction Site** The construction site will be located on Xylon Avenue between 115th and 116th Avenue N. The site will include a large, 80-foot-long tent (example pictured below), a resin tanker, an install rack, and boiler trucks (see the anticipated project area layout in the image to the right). Work will occur inside and around the tent.

**Xylon Residents between 115th & 116th Avenue N** A reminder to label your garbage and recycling bins with your address and put them out at the end of your driveway by 6pm on Thursday. Also, your mail will be available at a temporary mailbox at the intersection of Xylon and 116th Avenue N.

**Other Impacts** While we do our best to minimize impacts during construction, some temporary inconveniences such as 24-hour lighting, noise, and odors may occur as this work takes place.

**SAFETY**
Please keep your distance from any materials and equipment – only authorized personnel are permitted in our work areas. We want you and our crews to stay safe during construction.

**STAY INFORMED**
