Champlin Area Regional Sewer Rehabilitation
Construction Update May 3, 2019
Issue 5

Temporary wastewater conveyance pipe installation will continue next week. This work involves temporary intermittent road closures throughout the project area to allow crews to bury the pipe under the road to minimize traffic impacts during construction. Please refer to the road closure schedule and detour maps below for more information.

While we do our best to minimize impacts during construction, some temporary inconveniences such as dust, noise, and vibrations may occur as this work takes place.

Upcoming Temporary Intermittent Road Closures
