Activities through June

Crews are working on completing the installation of the interior pipes and pumps and continue installing the electrical and HVAC systems (see photos below).

Other projects in the area

The City of Coon Rapids began their Coon Creek Bridge Restoration project in early May. This project is located west of the MCES lift station (1055 Coon Rapids Boulevard Extension NW). The pedestrian/bike path is temporarily closed while the City restores the Coon Creek Bridge. Work is anticipated to be completed in mid-June of this year.

For more information on this project, please contact the City of Coon Rapids’ Engineering Department at 763-767-6479. You can sign up for the City’s weekly construction updates on their engineering page by clicking the “Notify Me” icon.

Construction activities and schedules are subject to change due to weather and other unforeseen circumstances.
