

Temporary conveyance removal begins

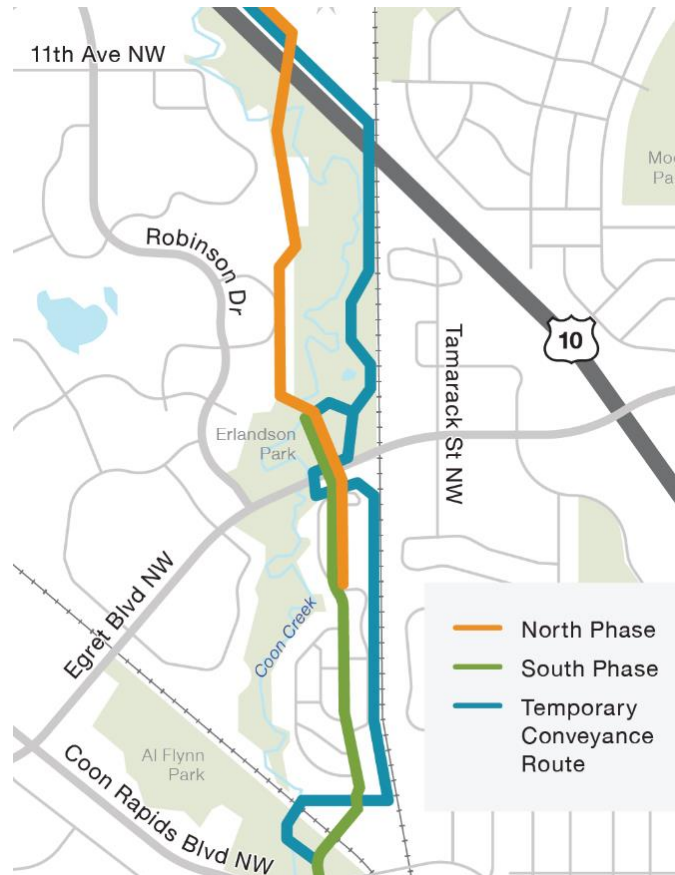

Inspection of the north and south phase of the newly lined sanitary sewer is complete and removal of the temporary conveyance line began on Wednesday, November 15.

Crews will continue to restore the project area in the coming weeks. Paving of the remaining trail in Erlandson Park and the entrance to Creekside Estates will occur the week after Thanksgiving.

Crews will return in the spring to ensure vegetation restoration is complete and to pave the parking lot in Erlandson Park.

Access will be maintained during this work. Residents may have periodic short-term delays while crews are working through the area.

Construction activities and schedules are subject to change due to weather and other unforeseen circumstances.
