Corcoran Lift Station Spring Update

Construction continues on the new wastewater lift station located near the intersection of Brockton Lane and Bass Lake Road in Corcoran as crews work to install the lift station’s electrical components. Later this April, we will begin commissioning and testing the lift station. Restoration of the site will follow in late May and June.

As a reminder, the area will remain an active construction zone until restoration is complete this June.

If you have additional questions or concerns, please email us at info@corcoranliftstationproject.com or call the project hotline at 763-280-7111.
