

Deephaven, MN

LIFT STATION L48 IMPROVEMENTS NOVEMBER 2024 UPDATE

UPCOMING WORK

Tree removals

The contractor will be removing approximately nine trees tomorrow in the Ridgewood Road project area, mostly on the south side. The trees that will be removed are currently marked. These trees will be removed for one or both of the following reasons:

- They are a hazard to traffic on Ridgewood Road.
- They will not survive due to construction activities and/or emerald ash borer damage.

Schedule

The project team expects work to conclude in the Ridgewood Road project area the week of Nov. 18. Work will begin on Cottagewood Road in early 2025.

NOTICE FOR RESIDENTS

Access

The contractor is working from the east side of the project area to the west. Once the contractor passes your driveway, you will need to access the project area from the east rather than from Vine Hill Road.

The contractor will communicate with you on site as they move past your driveway. You and your visitors will always have access to your driveway, except for when the trench box is in front of your property. The contractor will coordinate with you when this occurs.
