

Pipe installation on Lake Street postponed to Monday, June 10

As crews continue pumping the high level of groundwater on Lake Street, pipe installation has been rescheduled. Tentatively, on Monday, June 10, crews will begin replacing the underground utilities on Lake Street, between the lift station and Blake Rd.

The first phase of pipe installation will be sanitary. Crews plan to install the pipe from the lift station to Blake Rd.

Residents with driveways and garages off Lake St. will be notified 24-hours in advance of any driveway closures/restrictions during the work. Lake St. construction is anticipated to continue through the summer.
