

## Restoration update at the Hopkins lift station site

Crews will continue landscaping and installing the siding at the new lift station site through fall 2019.

## Lake Street restoration continues through early October 2019

This past week, crews with the City of Hopkins completed sidewalk installation on the south side of Lake St. between Blake Rd. and the lift station.

During the week of Sept. 23, crews will begin boulevard restoration.

Please anticipate the final layer of asphalt to be paved in early October. Advance notifications to impacted properties will be posted once a date is confirmed.

*Recently installed sidewalks on Lake St.*
