Interceptor Site Native Landscape Restoration

Project Update November 9, 2021

Restoration activities and schedules are subject to change due to weather and other unforeseen impacts.

Overview

Metropolitan Council Environmental Services (MCES) is undertaking sustainable landscape restoration projects at five interceptor sites in Bayport, Brooklyn Park, Eden Prairie, Mound, and Rosemount. Work includes replacing high-maintenance lawn and invasive plants with native plants and trees that are Minnesota nice – friendly to birds, pollinators, and water quality.

Restoration Activities

10488 W Riverview Dr, Eden Prairie (Blue Lake Siphon): Tree removal will begin the week of November 15th
4601 101st Ave N, Brooklyn Park (Brooklyn Park Property): Tree removal will begin the week of November 15th
6270 Westedge Blvd, Mound (Lift Station 38): Tree removal will begin the week of November 15th
498 Maine Street S, Bayport (Lift Station 68): Tree removal will begin the week of November 15th
145th Street W, Rosemount (Lift Station 75): No planned work

Safety Reminder

It is important to be mindful of restoration. Please do not attempt to enter or cross interceptor sites during restoration. For your safety and the safety of construction crews, do not attempt to handle or move construction equipment.

Future Work

Individual site development plans will be posted in the next few months.
