You are invited to an online open house about the plan for upcoming regional sanitary sewer projects in your area.

**ONLINE OPEN HOUSE**

**When?**
Tuesday, October 6th
7 p.m. – 8 p.m.

**Where?**
Visit MetroCouncil.org/SewerConstruction/LakeMtkaFacilityPlan on the day of the meeting to participate by computer or smartphone app.
To participate by phone, call +1 (408) 418-9388, Access code: 146 749 7298

Metropolitan Council Environmental Services (MCES), operator of the metro-area wastewater collection and treatment system, is developing a Facility Plan for the Lake Minnetonka service area. Projects included in this plan will serve communities within Hennepin and Carver County.

MCES Lake Minnetonka Facility Plan

Metropolitan Council Environmental Services (MCES), operator of the metro-area wastewater collection and treatment system, is developing a Facility Plan for the Lake Minnetonka service area. Projects included in this plan will serve communities within Hennepin and Carver County.

Upcoming Regional Sanitary Sewer Projects In Your Area

There will be three projects in your area aimed at improving efficiencies and system reliability:

1. Deephaven Lift Station L48 & Forcemain Project (Construction 2021-23)
2. Shorewood Lift Station (L20) Project (Construction 2022-24)
3. Shorewood Lift Station (L21) Project (Construction 2022-23)

When? Tuesday, October 6th, 7 p.m. – 8 p.m.

Where? Visit MetroCouncil.org/SewerConstruction/LakeMtkaFacilityPlan on the day of the meeting to participate by computer or smartphone app.

To participate by phone, call +1 (408) 418-9388, Access code: 146 749 7298

What’s a lift station?

MCES pumping stations or “Lift Stations” pump wastewater from low points in the local sanitary sewer system. Once “lifted”, wastewater flows by gravity through MCES’s regional pipes to a Metropolitan Council Regional Wastewater Treatment Plant. Pumping stations usually have an above-ground building to house mechanical, electrical, odor control and communications equipment.
