

Long Lake Interceptor Rehabilitation Project Update #7

April 27, 2023

Over the past few weeks, crews have continued to make trail and sidewalk repairs. **Please exercise caution when traveling through the area and follow any posted detour or closure signage.**

Restoration work

In the coming days and weeks, restoration seeding will take place, pending favorable weather conditions. Please follow signage directions and stay off of the areas with new seeding to allow the vegetation to grow.

Safety reminder

For your safety, please remember to follow any posted detour signs and do not cross any fenced off areas.

Thank you for your patience during construction!
