

Maple Grove Sanitary Sewer Improvement Project

Construction Update: June 30, 2023

Issue 4

Thank you for joining us

We would like to extend a big thank you to the many residents who were able to join us for our May 17 open house. We enjoyed meeting with the neighborhood and appreciated the good questions and concerns that residents shared with us. We've summarized the questions asked and our responses in this [Frequently Asked Questions document](#). The information gathered will help inform the design process this year and we will be sure to be in touch and share new information as we have it.

Didn't make it? We want to hear from you!

If you were not able to make it to the open house in May, we'd like to hear from you! Please take the survey below which will help us better understand your household's needs during construction and how to best communicate with you throughout construction.

[Take a 3-minute survey here](#)

Next steps

We look forward to keeping the neighborhood updated throughout the design phase and plan to communicate with residents through email updates, postcards, and a fall open house. If there are other ways to reach you and your neighbors, please let us know.

About this project

Metropolitan Council Environmental Services (MCES), operator of the metro-area wastewater collection and treatment system, is making improvements to aging and deteriorating regional sanitary sewer facilities that serve homes and businesses near the Bass Lake Road and Vagabond Lane intersection in Maple Grove.

For more information, please view the [Project Information Sheet](#).
