

Interior lift station work is wrapping up

Crews have begun painting inside the lift station, and new skylights are anticipated to be installed in mid-February. Final touches and other miscellaneous activities will continue through the month. Once work inside the lift station is completed, crews will return in spring to complete the final outdoor restoration work.

Construction activities and schedules are subject to change due to weather and other unforeseen circumstances.

Crews arrive to work on the interior of the lift station in Maple Plain
