

Meter structure work has begun

Crews are constructing the new wastewater meter structure near the intersection of County Road 11 and Townline Road in Independence. Work is anticipated to be complete in July.

This work may require periodic day time lane closures on County Road 11 and Town Line Road. Flaggers will be onsite every workday from 7 a.m. to 7 p.m. to direct traffic around the work zone, one direction at a time, as needed.

Additional project information

More information is available on our project website (including our virtual presentation) at: metro council.org/sewerconstruction/medina.

Construction activities and schedules are subject to change due to weather and other unforeseen circumstances.

A new roof is being installed at the MCES lift station in Maple Plain
