

## Cleaning of the sanitary sewer pipe under 2nd Street begins week of September 13

Good news! Crews have completed installation of the temporary aboveground wastewater conveyance pipes along 2nd Street. Starting the week of September 13, crews will begin cleaning the sanitary sewer under 2nd Street between 16th Avenue and 7th Avenue.

Repairs will be made on the sanitary sewer after the cleaning process is complete. As a reminder, 2nd Street between 16th Avenue and 15th Avenue will remain closed to allow for pumping equipment.

### What are the temporary wastewater conveyance pipes for?

The temporary wastewater conveyance pipes, as shown below, will ensure that there are no disruptions to sanitary sewer service while crews reconstruct and rehabilitate existing sewer pipes and structures underneath 2nd Street.
