

Northbound Marshall Street & 22nd Street reopen to traffic

Northbound Marshall Street is now open to traffic and 22nd Avenue between Marshall Street and Grand Street will be open to eastbound and westbound traffic by 6 p.m. Friday, March 11.

Crews are cleaning up and securing the site while we wait for materials to be delivered. We will be back in spring to complete work on the gates and structures underground. This work will require a full closure of Marshall Street. We will post an update once this work is scheduled to resume.

Main Street rehabilitation work continues

Crews continue rehabilitating the MEI system near Main Street and 2nd Avenue. Crews will soon begin working on the sewer structures on the south side of Main Street. Sewer cleaning along Main Street between 1st Avenue NE and 3rd Avenue SE has begun and is anticipated to be completed in mid-to late April.

Business access remains open

Access to businesses in the area will remain open during construction. Please park along adjacent side streets or in parking ramps/structures near Main Street.

Construction activities and schedules are subject to change due to weather and other unforeseen circumstances
