

Sand removal begins at Marquette Ave

A second crew has started sand removal on the new tunnel access shaft on 4th St at Marquette Ave.

Crews will continue to work at a slow pace to help avoid any cave-ins in this area.

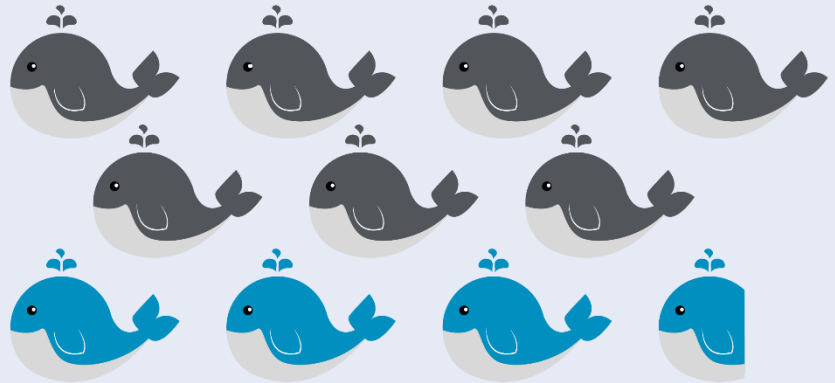

Sand removal between 1st Ave and Hennepin Ave is nearly complete. After sand removal is finished, crews will begin grout work.

How much sand has been removed?

2,100 Tons

That's equal to the weight of 10.5 blue whales

3 from August and September alone

What's the status of sand removal?

65%

Complete

Information as of October 2, 2019
