Four-month closure of 52nd St begins April 15

Crews continue installing the temporary aboveground wastewater conveyance pipes along Hwy 55 towards 52nd St. A four-month closure of 52nd St, between the alleyway and 47th Ave, will be needed to install temporary wastewater conveyance pipes and pumps along Hwy 55 (see map below, stage 1). This road closure will start at 7 a.m. on Wednesday, April 15, and will remain closed for approximately four months.

Initially, 47th Ave will remain open to traffic traveling in both directions. About a week after 52nd St closes, 47th Ave will become a one-way (southbound only) street because it will be reduced to a single lane at the 52nd St intersection (see map below, stage 2). These traffic changes are necessary for crews to install and maintain the temporary wastewater conveyance pipes and pumps along Hwy 55.

See below for more information
Residents and businesses in the area will receive notification in advance with information on access during the road closure. Pedestrian access to businesses at the intersection of 52nd St and 47th Ave will remain open, but there may be temporary pathways with gravel or other temporary surfaces.

These temporary conditions will remain in place through June when the rehabilitation work in this area is complete. At that time, the pipes will be removed, and the roads will be restored with permanent paving.

**Safety reminder**
Trail users, for your safety, please remember to follow any posted detour signs and do not cross the fenced off areas.

*Construction activities and schedules are subject to change due to weather and other unforeseen circumstances.*
