Temporary closures of the Hiawatha Ave frontage road and 50th St begin April 8

Crews continue installing the temporary aboveground wastewater conveyance pipes along Hwy 55 near 50th St. Temporary closures will be needed at the intersections of the Hiawatha Ave frontage road and 50th St and 50th St and Hwy 55 to install the pipe beneath the roads (see map to the right). These **road closures will start at 7 a.m. on Wednesday, April 8** and will remain closed for approximately two weeks.

Neighborhood access will remain open at 42nd Ave S and 43rd Ave S. Pedestrian access will also be maintained, but there may be temporary pathways and gravel or other temporary surfaces.

People wishing to access Hwy 55 will need to use local streets to reach Hwy 55 intersections at either 54th St or 46th St.

Once the work is completed, the roads will reopen with a temporarily paved surface. These temporary conditions will remain in place until work is completed in mid-October. At that time, the pipes will be removed, and the roads will be restored with permanent paving.

**Safety reminder**

Trail users, for your safety, please remember to follow any posted detour signs and do not cross the fenced off areas.

*Construction activities and schedules are subject to change due to weather and other unforeseen circumstances.*
Temporary no parking and short-term traffic delays on Minnehaha Pkwy begin April 9

Crews are anticipated to begin street sweeping and striping the temporary bike detour along E Minnehaha Pkwy between 34th Ave S and 39th Ave S next week. There will be no parking along E Minnehaha Pkwy on Thursday, April 9 and Friday, April 10 from 7 a.m. to 6 p.m. while crews are working (see map below). The traveling public can expect periodic short-term delays on E Minnehaha Pkwy while crews move materials and equipment around.

Please move carefully through the construction area and allow extra travel time as needed. Bicyclists will need to use the driving lanes to move around the crews or use an alternate route. Crew members will help direct people around the work area as needed.
