Temporary lane closure on Nawadaha Blvd begins January 2

The eastbound lane will be temporarily closed on Nawadaha Blvd from January 2 through January 24 (see map below). This closure is necessary for crews to install temporary conveyance pipes underneath Nawadaha Blvd. These pipes will ensure that there are no disruptions to sewer service while crews rehabilitate existing sewer pipes.

The westbound lane will remain open from Minnehaha Ave and both lanes will remain open to and from E 46th St. Access to the businesses along Nawadaha Blvd will remain open from both directions at E 46th St.

The construction timeline is subject to change, depending on the weather and ongoing coordination efforts with the various contractors and agencies working in the project area.
Long-term temporary closure of the Hiawatha Bicycle Trail begins in January

A long-term closure of the Hiawatha Bicycle Trail between Minnehaha Creek Trail and Minnehaha Pkwy will begin the week of January 6. This closure is necessary because crews will be doing work that will impact the trail and is anticipated to remain in place until July 2021.

During the trail closure, bicycle traffic will be detoured to Minnehaha Creek Trail, 34th Ave and Minnehaha Pkwy. When weather permits, bike lanes with temporary striping will be created on sections of 34th Ave crossing Minnehaha Creek and along east- and westbound Minnehaha Pkwy (see map below).

Construction activities and schedules are subject to change due to weather and other unforeseen circumstances.
