Temporary short-term traffic delays occur on E Minnehaha Pkwy February 28th

On Friday, February 28, the eastbound lane on E Minnehaha Pkwy will temporarily close between 38th Ave and the roundabout at Minnehaha Ave from 10 a.m. until noon. Travelers should expect short-term traffic delays while flaggers direct traffic around the work zone one direction at a time. This lane closure is needed for crews to move equipment and materials in to build a temporary bridge over Minnehaha Creek.

This bridge is needed as part of the aboveground temporary wastewater conveyance system that is being installed east of Hwy 55 (Hiawatha Ave) between E Minnehaha Pkwy and 50th St. These temporary pipes and pumps will ensure that there are no disruptions to sewer service while crews rehabilitate the existing sanitary sewer pipes.

Residents, businesses and park users can also anticipate trail closures and short-term traffic delays while crews move equipment and materials.

Safety reminder
Trail users, for your safety, please remember to follow any posted detour signs and do not cross the fenced off areas.

Construction activities and schedules are subject to change due to weather and other unforeseen circumstances.
