Temporary short-term traffic delays on E Minnehaha Pkwy begin January 27

E Minnehaha Pkwy will have temporary short-term traffic delays beginning Monday, January 27. Periodic short-term delays will occur daily from 7 a.m. until 7 p.m. for the next three weeks. These restrictions are needed as crews continue to install the temporary wastewater conveyance pipes and pumps east of Hwy 55 (Hiawatha Ave) between E Minnehaha Pkwy to the creek.

These pipes and pumps will ensure that there are no disruptions to sewer service while crews rehabilitate the existing sanitary sewer pipes.

Residents, businesses and park users can also anticipate trail closures and short-term traffic delays while crews move equipment and materials.

Safety reminder
Trail users, for your safety, please remember to follow any posted detour signs and do not cross the fenced off areas.

UPDATE: Hiawatha Bicycle Trail closure begins January 29

The long-term closure of the Hiawatha Bicycle Trail between Minnehaha Creek Trail and Minnehaha Pkwy will close at 7a.m. on Wednesday, January 29. This closure will remain in place until July 2021.

During the trail closure, bicycle traffic will be detoured to Minnehaha Creek Trail, 34th Ave and E Minnehaha Pkwy (see map below).

Construction activities and schedules are subject to change due to weather and other unforeseen circumstances.
Temporary short-term traffic delays on E 50th St begin the week of February 3

Crews are anticipated to begin installing the temporary wastewater conveyance system along Hwy 55 near E 50th St the week of February 3. There will be short-term traffic delays on E 50th St while crews move materials and equipment around. Currently, we anticipate this work will take approximately three weeks to complete. Area residents will be notified individually in advance of any additional impacts.
