

Hiawatha Bicycle Trail reopens July 26

Crews will complete asphalt and concrete paving of the trail, sidewalks, and curb and gutter replacements this week. After paving is completed and the concrete hardens, the bike detour route will be removed along 34th Avenue S and E Minnehaha Parkway. After the bike detour route has been removed, the 39th Avenue S intersection at Minnehaha Parkway and the Minnehaha Bicycle Trail will be reopened by 7 p.m. on Monday, July 26.

Activities through August

- Cleaning of the large diameter sewer pipes from the north side of Godfrey Parkway to the Minnehaha roundabout and down to the E 50th Street and Hiawatha Avenue intersection. Crews will continue working Saturdays from 7 a.m. to 3:30 p.m. at multiple site locations as needed. This work is estimated to be completed at the end of August, but is dependent on weather and other factors, like how much debris is in the sewer pipes.
- Restoration activities and site cleanup activities continue. There may be short-term traffic delays as crews work in the area.

Construction activities and schedules are subject to change due to weather and other unforeseen circumstances.
