

Minnetrissa Sewer Improvements Project

Project Overview

Metropolitan Council Environmental Services (MCES), operator of the metro-area wastewater collection and treatment system, is making sewer infrastructure improvements in the City of Minnetrista.

Project Description

MCES will construct three miles of dual force main sewer pipe and renovate pumping station L24 near the intersection of Highland Road and Highway 7. Work is expected to begin in 2020 and will continue through 2022.

Impacts to Residents & Motorists

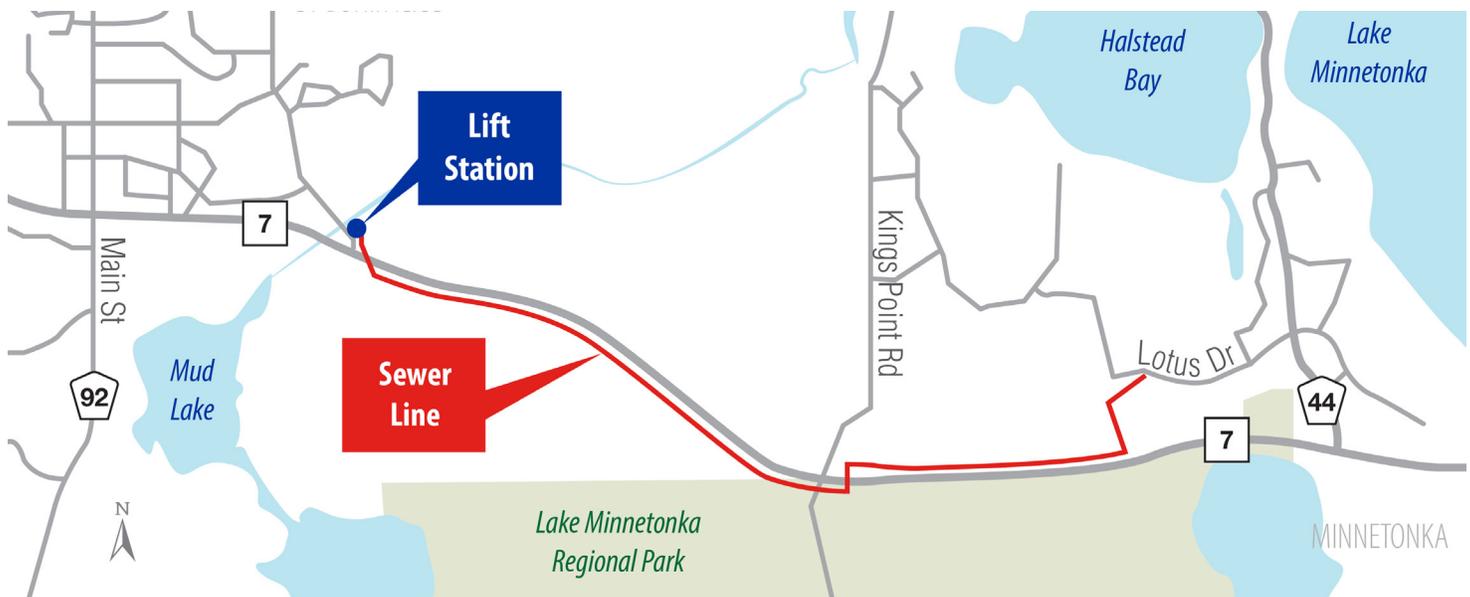

This work will mainly occur in MnDOT right-of-way, along Highway 7. Motorists should expect minor **lane closures on Highway 7, Lotus Drive and Highland Road**

While crews know this is a residential area and will do their best to limit **disruptions**, please anticipate some lights, noise, vibrations, and construction traffic at any time.
