Halstead Bay Bridge reopens, CR 44 closes farther south on June 14

CR 44 will reopen to local traffic at the Halstead Bay Bridge by the end of the day on Friday, June 14 and close to all traffic between Trillium Ln and Shady Ln for crews to continue rebuilding the road and continue underground utility work (more schedule information below).

Activities for the week of June 10

- **CR 44 at Halstead Bay Bridge:**
  - Crews are filling in the pits and rebuilding the road; the road will be temporarily paved by the end of the week.
  - **Reminder:** CR 44 will close again for crews to complete pipe work and connections between Eagle Bluff Rd and Sinclair Rd later this year.

- **CR 44 between Halstead Bay Bridge and Shady Ln:**
  - Crews continue setting up temporary aboveground wastewater conveyance pipes between Halstead Bay Bridge and Shady Ln.

- **Lake Minnetonka Regional Park:**
  - Crews will be paving the park road later in the week. Crews will pave one lane at a time, but there may be periodic short-term traffic delays while crews move equipment and materials around.
  - If you have an extra-wide boat/trailer, please call us at 952-222-3912 to ensure access to/from the boat launch.

- **Along Hwy 7 between Merrywood Ln and Virginia Dr:**
  - The entrances to Merrywood Ln and Baycliffe Dr will be temporarily paved later in the week. Entrances will be paved half at a time to keep access open to/from the neighborhoods.
  - Pipe lining and rehabilitation continues and is anticipated to be completed by the end of the month.

- **Westedge Blvd/CR 44 between Halstead Ln and Sinclair Rd:**
  - Crews will continue prepping and seeding areas between Bartlett Blvd/CR 110 and Sinclair Rd.

If you live in the area and need to drive by locations where crews are working, be aware that there may be lane shifts or lane closures. During lane closures, flaggers will direct traffic around the work for one direction at a time as needed.

For your safety, the safety of neighborhood residents and our workers, please slow down and allow extra travel time around the area.

Construction activities are subject to change due to weather, schedule, and unforeseen impacts.
