

Mound and Spring Park in Hennepin County

MOUND SANITARY SEWER REPLACEMENT UPDATE

SITE ONE TEMPORARY CONVEYANCE BEGINS NEXT WEEK

Crews continue to install the new pipe at site one, located at the Auditors Road intersection.

Beginning the week of July 22, the sewer line will be rerouted from the old pipe to a temporary conveyance system. Aboveground temporary conveyance pipes ensure there are no disruptions to sewer service during construction. Diesel pumps with noise dampening equipment will run 24 hours a day as part of the system.

Sewer service is expected to switch over to the new pipe in late July or early August, and the temporary conveyance system will be removed.

USE APPROVED DETOURS IN CONSTRUCTION AREA

Through traffic on Shoreline Drive should continue to follow the approved and signed detour via Commerce Boulevard, Highway 125 (Bartlett Boulevard), and Wilshire Boulevard. In coordination with the Orono Police Department and the City of Mound, additional signage was installed in the project area this week to address safety concerns.

Please avoid using residential side streets beyond the detour to navigate around construction. This helps ensure the safety of drivers, sidewalk and trail users, and project neighbors.

If you are driving to this weekend's Spirit of the Lakes festival, please prepare for additional traffic and plan ahead for traffic delays. Thank you for your patience.

ADDITIONAL LANE SHIFTS ON SHORELINE DRIVE

Crews will continue to drill test holes in the site two project area, located on Shoreline Drive between Chateau Lane and West Arm Road, in the coming weeks as part of the pipe replacement process. Westbound traffic may be temporarily shifted to the north side of Shoreline Drive during drilling. Please follow all signs and traffic control.
